Guide to the City Council Proceedings

The Oral Communication portion of the agenda is for members of the public to present items, which are not listed on the agenda but are under the subject matter jurisdiction of the City Council. No action may be taken under, except to direct staff unless the Council, by a two-thirds vote, determines that there is a need to take immediate action and that need came to the attention of the City after the posting of the agenda. Although no action may be taken, the Council and staff will follow up, at an appropriate time, on those items needing response. Each speaker is limited to three (3) minutes. Time may be surrendered by deferring one (1) minute to another speaker, not to exceed a total of eight (8) minutes. The speaker wishing to defer time must be present when the item is heard. In order to be recognized and present an item, each speaker must complete and submit to the Recording Secretary a Request to Speak form prior to the beginning of the item being announced by the Mayor (forms are available outside the Council Chambers). Speakers are taken in the order slips are submitted.

Items in Consent Calendar Section A have already been considered by the Council at a previous meeting where the public was invited to comment, after which a decision was made. These items are not subject to public discussion at this meeting because the vote taken at the previous meeting was final. Resolutions concerning decisions made at previous meetings are for the purpose of memorializing the decision to assure the accuracy of the findings, the prior vote, and any conditions imposed.

Items in Consent Calendar Section B have not been discussed previously by the Council. If discussion is desired, an item may be removed from the Consent Calendar for individual consideration. Councilmembers may indicate a negative or abstaining vote on any individual item by so declaring prior to the vote on the motion to adopt the entire Consent Calendar. Items excluded from the Consent Calendar will be taken up by the Council following the action on the Consent Calendar. The Council first will take up the items for which public speaker requests have been submitted. Public speakers shall follow the rules as set forth under Oral Communication.

For Public Hearings involving zoning matters the appellant and applicant will be given 15 minutes each to present their position to the City Council, including rebuttal time. All other testimony shall follow the rules as set forth under Oral Communication.

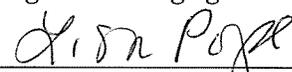

Old Business items have appeared on previous agendas but have either been continued or tabled to this meeting with no final action having been taken. Public comment shall follow the rules as set forth under Oral Communication. **Items in New Business** are items, which are appearing for the first time for formal action. Public comment shall follow the rules as set forth under Oral Communication.

City Council Items are items, which individual members of the City Council may bring up for action, to propose future agenda items or to suggest future staff assignments. No new items will be taken-up after 10:30 p.m. without a two-thirds vote of the City Council.

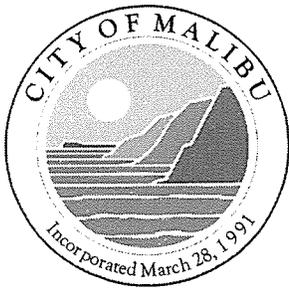

City Council meetings are aired live and replayed on City of Malibu Government Access Channel 3 and on the City's website at www.malibucity.org/video. Copies of the staff reports or other written documentation relating to each item of business described above are on file in the office of the City Clerk, Malibu City Hall, 23825 Stuart Ranch Road, Malibu, California and are available for public inspection during regular office hours which are 7:30 a.m. to 5:30 p.m., Monday through Thursday and 7:30 a.m. to 4:30 p.m., Friday. Written materials distributed to the City Council within 72 hours of the City Council meeting are available for public inspection immediately upon distribution in the City Clerk's office at 23825 Stuart Ranch Road, Malibu, California (Government Code Section 54957.5.b.2). Copies of staff reports and written materials may be purchased for \$0.10 per page. Pursuant to State law, this agenda was posted at least 72 hours prior to the meeting.

The City Hall phone number is (310) 456-2489. To contact City Hall using a telecommunication device for the deaf (TDD), please call (800) 735-2929 and a California Relay Service operator will assist you. In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact Acting Environmental Sustainability Director Craig George, (310) 456-2489, ext. 229. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting. [28 CFR 35.102-35.104 ADD Title II]. Requests for use of audio or video equipment during a Council meeting should be directed to Alex Montano at (310) 456-2489 ext. 227 or amontano@malibucity.org. Material must be submitted by 12:00 p.m. on the meeting day.

I hereby certify under penalty of perjury, under the laws of the State of California that the foregoing agenda was posted in accordance with the applicable legal requirements. Regular and Adjourned Regular meeting agendas may be amended up to 72 hours in advance of the meeting. Dated this 22nd day of April 2016.

Lisa Pope, City Clerk

Council Agenda Report

To: Mayor Rosenthal and the Honorable Members of the City Council

Prepared by: Reva Feldman, Assistant City Manager 

Reviewed by: Jim Thorsen, City Manager

Date prepared: April 22, 2016

Meeting date: April 27, 2016

Subject: Proposed Budget for Fiscal Year 2016-2017

RECOMMENDED ACTION: Provide direction to staff on the proposed Fiscal Year 2016-2017 budget, General Fund Grants and Annual Work Plan.

FISCAL IMPACT: The proposed budget totals \$80.84 million in revenue and \$80.89 million in expenses, and includes the General Fund budget, which totals \$26.54 million in revenues and \$25.84 million in expenses. The increase of the total proposed budget from prior years is due to the addition of the Civic Center Wastewater Treatment Facility (CCWWTF) project, which is budgeted at \$47.37 million for Fiscal Year 2016-2017.

DISCUSSION: City staff is pleased to present a balanced preliminary budget for Fiscal Year 2016-2017. This amount includes General Fund revenues of \$26.54 million and General Fund expenditures of \$25.84 million. The projected Undesignated General Fund reserve at June 30, 2017 is \$22.60 million. The projected reserve is 87% of the annual operating budget and exceeds the City's goal of maintaining a minimum of 50% of the operating budget in reserves. The total projected General Fund balance (including Designated and Undesignated Reserves) at June 30, 2017 is \$26.71 million.

Revenues to the Special Revenue Fund total \$51.64 million and expenditures total \$2.17 million. Transfers of \$49.66 million to other funds will leave a projected reserve of \$591,000 of Special Revenue Funds at Fiscal Year-end.

Revenue to the Legacy Park Project Fund totals \$2.15 million and expenditures total \$20.07 million. The projected Legacy Park Project Fund Reserve at June 30, 2017 is \$739,000.

Revenue to all funds is projected at \$80.84 million and expenditures for all funds are projected at \$80.89 million.

General Fund Undesignated Reserves

The Fiscal Year 2016-2017 budget proposes a starting General Fund Undesignated Reserve at July 1, 2016 of \$22.26 million. This reserve is \$2.70 million higher than the General Fund Undesignated Reserve that was anticipated during the prior year budget development. The increase is due to the expected \$1 million reimbursement from the CCWWTF project, as well as strong General Fund revenues and conservative spending in Fiscal Year 2015-2016. High reserves have been achieved while funding high priority Council goals and completing multiple capital acquisitions and improvement projects.

The General Fund Undesignated Reserve is budgeted at 87% of the annual operating budget and exceeds Council Policy #3, which sets a goal of maintaining a minimum of 50% of the operating budget in reserves. The projected General Fund Undesignated Reserve at June 30, 2017 is \$22.60 million.

General Fund Revenue

All of the City's major tax revenue sources are budgeted to increase or remain steady in Fiscal Year 2016-2017.

The City's major General Fund tax revenue sources are Property Tax, Documentary Transfer Tax, Utility User's Tax, Transient Occupancy Tax and Sales Tax. Secured Property Tax revenue (100-0000-3111) is projected to increase \$300,000 to \$8.60 million from Fiscal Year 2015-2016. Documentary Transfer Tax is budgeted to increase \$100,000 from the prior fiscal year as a result of the increase of real estate sales in the past year. Utility User's Tax will increase \$15,000. Several new retail and restaurant outlets account for an increase in Sales Tax revenue (100-0000-3137) with an increase of \$150,000 from the 2015-2016 budgeted amount. Transient Occupancy Tax (100-0000-3133) from hotel rentals will remain consistent with the prior year amount, while Transient Occupancy Tax from short-term residential rentals (100-0000-3133-01) is budgeted to increase \$250,000 from the budgeted amount of the prior fiscal year.

Revenue from Licenses and Permits is budgeted to increase a total of \$265,000 from the prior fiscal year and revenue from Service Charges is budgeted to increase \$123,000 from the prior fiscal year.

The net change of all General Fund revenue represents an increase of \$1.10 million in revenue from the Fiscal Year 2015-2016 Adopted Budget, which is a reflection of the City's ongoing fiscal stability and strength.

Special Revenue Funds

The Special Revenue Fund totals \$51.64 million, including \$47.37 million in funding for the CCWWTF. Gas Tax revenue is projected at \$275,000. Gas Tax revenues are based, in part, on projected fuel costs and sales, and the budgeted amount has

declined \$25,000 from the prior year, which can be attributed to a lighter demand for gas and a downward trend in prices. Traffic Safety revenue is projected at \$300,000, which is a decrease of \$50,000 from the prior year. Proposition A revenue is projected at \$220,000 and Proposition C revenue is projected at \$175,000, both of which are consistent with revenue received in these funds in the prior fiscal year. Revenue from the three Landslide Maintenance Districts, the Carbon Beach Undergrounding Community Facilities District and the Broad Beach Undergrounding Assessment District are also budgeted in Special Revenue funds. Revenue from the Landslide Maintenance Districts is used for operations and maintenance. Revenue from the other special districts is used to pay debt service and associated administrative costs.

Legacy Park Project Fund

The Legacy Park Project Fund reflects revenue and expenditures associated with the City's three commercial properties, Legacy Park and clean water projects. The proposed budget for Fiscal Year 2016-2017 includes \$1.44 million of base rental income from three commercial properties and \$650,000 of percentage rental income from the Malibu Lumber Yard site for a total of \$2.09 million. Revenue is used for debt service associated with the Legacy Park acquisition, operations and maintenance of Legacy Park, and other high priority clean water expenses. The available amount in the Legacy Park Project Fund has decreased from the prior year as a result of the CCWWTF Assessment District payment necessary for the commercial properties. The City will be reimbursed the total amount from the commercial property tenants over a period of time.

Expenditures

The proposed budget for Fiscal Year 2016-2017 is based on the Annual Work Plan included as Attachment 3.

In spite of the increase in General Fund Revenue, the proposed budget for Fiscal Year 2016-2017 has been developed conservatively with a continued emphasis on streamlining services in order to reduce costs. Special Revenue and Legacy Park Project funds have been budgeted in lieu of General Funds where appropriate in an effort to reduce the use of General Funds.

Internal Service allocations for information technology and vehicles are assigned by department. For Fiscal Year 2016-2017, the proposed budget includes an Information Technology allocation of \$3,500 per computer user and \$5,000 per vehicle user.

The City's CalPERS contribution rate for Fiscal Year 2016-2017 will be 16.56% of payroll for Classic Employees (hired prior to 2013) and 6.93% of payroll for New Employees (hired after 2013). In Fiscal Year 2015-2016, the City's contribution rate for Classic Employees was 16.35% and 6.73% for New Employees. The Proposed

Budget provides for 53 Classic Full-Time Employees and 16 New Full-Time Employees. Part-Time Employees and Interns do not participate in CalPERS.

Management Services

The overall budget for Management Services has increased from the prior fiscal year by \$42,000. This increase is comprised of the net impact of:

- A decrease of \$48,000 in City Council due to a reduction in Special Events
- An increase of \$18,000 in the City Manager budget
- An increase of \$55,000 in the City Attorney budget for litigation expenses.
- An increase of \$16,000 in the City Clerk budget

Public Safety

The overall budget for Public Safety has increased \$489,000 from the prior fiscal year due to an increase of costs charged by the Los Angeles County Sheriff's Department (LASD), including a 3.7% cost of living increase and a 3.5% increase for the Sheriff's Department liability trust fund for a total increase of 7.2%. In the upcoming year, staff will be working with LASD to address this increase and how to curtail future increases that could greatly impact the City's budget. The City continues to use \$100,000 in grant funds to supplement law enforcement activities, which helps the offset the amount of General Funds used for this department.

Administrative Services

Changes to the Administrative Services budget provide for a net increase of \$244,000 as a result of:

- A decrease of \$80,000 in the CCCWWTF professional services – these costs will be covered in the Capital Improvement Project budget for Fiscal Year 2016-2017
- An increase of \$8,600 in Media Operations for salaries and benefits
- A \$5,000 decrease in Legacy Park Debt Service
- A decrease of \$59,000 in Legacy Park Operations due to the completion of the art enhancement project offset by increases in park maintenance
- A \$72,000 increase in Finance reflective of the addition of an Account Clerk position and an increase in Film Permit Services
- An increase of \$90,000 in Human Resources as a result of additional staffing
- An increase of \$307,000 in Non-Departmental Services due to an increase in the City's required payment of Other Post-Employment Benefits and the annual CalPERS liability payment. In addition, \$60,000 has been added to reflect a major rate increase in the Joint Use Agreement with the Santa Monica-Malibu Unified School District.
 - A \$5,300 decrease in Information Systems
 - A \$25,000 decrease in City Hall

- A \$60,000 decrease in debt service for the Carbon Beach Undergrounding and the Broad Beach Undergrounding budgets

Parks and Recreation

The Parks and Recreation budget for Fiscal Year 2016-2017 has increased a net amount of \$76,000 due to:

- A decrease of a total of \$56,000 in General Recreation, Aquatics, Outdoor Recreation, Day Camp and Community Classes
- An increase of \$2,800 in Youth Sports
- An increase of \$12,000 in Senior Adult Programs for additional part-time staffing
- An increase of \$96,000 in Park Maintenance for deferred maintenance improvements at Bluffs Park and Trancas Canyon Park
- A \$19,000 increase in Special Events to reflect additional contract personnel for City events

Environmental Sustainability

The budget for the Environmental Sustainability Department has increased \$47,000 for Fiscal Year 2016-2017 compared with the prior year budget as a result of:

- An increase of \$212,000 in Building Safety for Professional Services for additional plan check services and database services
- A \$73,000 decrease in Wastewater Management comprised of a decrease in salaries and benefits and professional services
- A \$77,000 decrease in Clean Water due to the completion of water conservation efforts
- A decrease of \$14,000 in Solid Waste Management

Planning

The Planning Department's budget has increased \$38,000 due to:

- A \$30,000 increase in Planning for Salaries and Benefits and Professional Services offset by a decrease in Advertising and Noticing
- The budget for Code Enforcement has increased \$7,000

Public Works

The budget for Public Works has increased \$285,000 attributable to:

- Decreases in Street Maintenance and Stormwater Treatment Facilities offset by increases in Fleet Operations for a new vehicle and an increase of \$179,000 in Public Works/Engineering for additional staffing. Some of the additional staffing increases will be funded from Los Angeles County Measure R funds.

- A \$129,000 increase to the budgets for the three Landslide Maintenance Districts funded through special revenue

Capital Projects

The Capital Improvement Projects budget totals \$50.2 million for Fiscal Year 2016-2017, including:

Annual Street Overlay	\$ 625,000
Civic Center Wastewater Treatment Facility	\$ 47,372,466
PCH Regional Traffic Messaging System	\$ 300,000
PCH Intersection Improvements	\$ 631,185
PCH Median Improvements	\$ 350,000
Civic Center Way Improvements	\$ 300,000
Malibu Community Labor Exchange Trailer	\$ 125,000
PCH Signal Synchronization System	\$ 180,000
Speed Advisory Signs	\$ 50,000
Bus Stop Shelters	\$ 30,000
Paradise Cove Media Filters	\$ 45,000
Civic Center Storm Drain System Improvements	\$ 100,000
PCH Shoulder Enhancements	\$ 75,000
Marie Canyon Green Streets	\$ 25,000
Storm Drain Trash Screens	\$ 35,000

The Proposed Budget includes \$47.37 million for the CCWWTF project. Funding for the CCWWTF project will be provided through an Assessment District (AD) with a combination of loans and grants from the State Revolving Fund (SRF) and bond financing issued by the AD. The City will be responsible for payments to the contractors and will be reimbursed by the SRF on a regular basis.

The City's SRF application includes a request for funding at 1% in Recycled Water Funds, a request for funding at 1.8% in Wastewater Loan Funds, and a Recycled Water grant. It is anticipated that the City, acting on behalf of the AD, will also issue limited obligation bonds at an approximate interest rate of 7% to pay for cost ineligible under the SRF funding.

The City will be reimbursed for all costs associated with the CCWWTF project through the funding sources indicated above. Pursuant to the City's budgeting policies, unspent capital project funds will be rolled over each year until the project is completed.

Of the total \$50.2 million of capital expenditures, \$10.8 million is being funded from grants; \$455,000 from special revenue funds, \$100,000 from the Legacy Park Project Fund, \$38.3 million from State Revolving Fund Loans, and \$480,000 from the General Fund Capital Improvement Projects Designated Reserve.

Personnel

The proposed budget for Fiscal Year 2016-2017 provides for 84 full-time equivalent positions comprised of 69 full-time employees, the equivalent of 11 full-time employees working as part-time employees, and the equivalent of 4 full-time employees working as student interns. The total of 84 full-time equivalent positions is an increase of 2 full-time equivalent positions from the prior fiscal year.

Pending review and approval by the Council, the following personnel changes have been included in the proposed budget for Fiscal Year 2016-2017:

- Add: Human Resources Technician (Administrative Services): The City has historically had one staff person that manages all of the Human Resources functions. This staffing level has not changed, even while the City's overall staffing has increased. In the past ten years, the City has added 20 new full-time equivalent (FTE) positions, a Student Intern program, and has increased the number of part-time recreation staff, which has added to the overall Human Resources workload. While the City has had relatively low turnover in full-time positions, the Student Intern program and the part-time recreation staff equate to 50 people being processed through Human Resources each year. Additionally, increased requirements for disability-related absences, federal law compliance and CalPERS have increased the workload considerably. The addition of a new full-time Human Resources Assistant will allow the City to effectively meet the increased workload.

This position will be funded by the General Fund. The net impact to the General Fund for Fiscal Year 2016-2017 is \$82,000.

- Add: Accounting Clerk (Administrative Services): Additional accounting staffing is needed to meet the increased workload in the Finance and Accounting Division. Currently, the Division has three full-time staff who manage all functions, including accounts payable, accounts receivable, payroll, budgeting, grants, debt management, audits, film permits, parking citations, and all other finance-related matters. The Division's workload has steadily increased over the past ten years as the City's General Fund has increased, staffing has increased, more capital projects are being done, and assessment districts and community facilities districts have been formed. The recent approval of the CCWWTF Assessment District will create a great deal of additional financial and accounting work. The addition of an Accounting Clerk will help provide additional financial management of the complex financing structure on the CCWWTF project and other City financial matters.

In Fiscal Year 2016-2017, this position will be funded by the General Fund with a net impact of \$69,000. In future fiscal years, funding from the CCWWTF AD administrative account will help offset the cost by \$25,000.

- Add: \$150,000 has been added to the Public Works budget for Fiscal Year 2016-2017. Specific job specification information will be presented to the Council at the May 23, 2016 Public Hearing regarding staff that will be assisting with capital improvement projects.

The new positions will be funded from a combination of Los Angeles County Measure R funds and the General Fund in Fiscal Year 2016-2017.

- Reclassification: Human Resources Analyst to Human Resources Manager: This reclassification will allow the current Human Resources Analyst to supervise the new Human Resources Technician as explained in detail above.
- Reclassification: Senior Accounting Technician to Financial Analyst. This reclassification is necessary to address the increased accounting and financial work as explained in detail above.
- Reclassification: Information Systems Administrator to Information Systems Manager. This reclassification is necessary to appropriately commensurate the incumbent position.

The City typically provides an annual cost of living adjustment to employees. The adjustment is derived from the Consumer Price Index (CPI) using an annual percentage from February. The percentage change of the CPI was 2.4% in February. A cost of living adjustment in the amount of 2% has been included in the proposed budget.

The City Manager has the authority to transfer staff into previously authorized classifications provided there is no fiscal impact as a result of the transfer.

General Fund Grant Applications

Included in this report (Attachment 2) is a summary of the General Fund Grant applications for Fiscal Year 2016-2017. A total of 33 applications were received totaling \$558,440. The proposed budget includes \$130,000 for the General Fund Grant program. The Administration and Finance Subcommittee will meet on May 3, 2016 to discuss the applications and make a recommendation to the City Council.

CITY COUNCIL

The City of Malibu is a general law city and operates under the Council-Manager form of government. The five-member City Council is elected at-large to serve four-year terms. The Mayor's office is rotated among all Councilmembers. As elected officials, the City Councilmembers represent the citizens of Malibu in the governing process and act on their behalf with regards to regional and local issues, as well as state and federal legislation.

The City Council is the legislative authority and sets the policies under which the City operates. Duties of the City Council include enacting legislation, such as local laws and ordinances, approving City programs, adopting the City's budget and appropriating the funds necessary to provide service to the City's residents, businesses and visitors. The City Council provides leadership through policy development regarding the current practices and future direction of the City.

The City Council convenes regular meetings on the second and fourth Mondays of each month and holds occasional special meetings. The City Council appoints the City Manager, City Attorney and City Treasurer, as well as the members of the City's Boards, Commissions and Committees.

In Fiscal Year 2016-2017, the City Council's budget contains \$150,000 for legislative consulting services. The Community Grants line item is budgeted at \$130,000 for the General Fund Grants program awarded by the City Council to non-profit community groups providing services for the benefit of Malibu residents.

The Council's travel budget of \$30,000 consists of \$10,000 for the Mayor and \$5,000 for each of the four Councilmembers. City Councilmembers are increasing their presence and influence on several state issues that affect Malibu. Currently, Councilmembers sit on several state and local committees, including the League of California Cities Community and Economic Development Committee, the Environmental Quality Policy Committee, the Water Task Force, and the Coastal Cities Issue Group, as well as the Contract Cities of California Governing Board and the Santa Monica Bay Restoration Commission Governing Board. This increasing presence required additional funding in the line item for travel and training.

The Memberships and Dues budget includes costs related to the City's membership in the Las Virgenes-Malibu Council of Governments (COG), the League of California Cities, the California Contract Cities Association, the Southern California Association of Governments (SCAG) and the California Coastal Coalition.

The Events budget covers expenses related to City Council events including the Council reorganization, ribbon cuttings and the holiday open house.

CITY MANAGER

The City Manager is appointed by the City Council to carry out its policies and ensure that the community is served in a responsive manner. Responsible for oversight of all City operations and delivery of public services, the City Manager provides leadership and direction to the City's management team in developing policy recommendations and responding to directives of the City Council.

In addition to performing the day-to-day activities associated with management of the organization, the City Manager's office implements special projects authorized by the City Council, oversees implementation of the Council's legislative agenda, provides direction of the annual budget process and supports the City Council in the development and adoption of City policy.

LEGAL COUNSEL

The City of Malibu contracts for legal services to provide counsel to the City Council, City staff, and City Boards and Commissions. The firm of Jenkins & Hogin represents the City in litigation, manages outside counsel representing the City, drafts ordinances and resolutions, reviews claims and contracts, and counsels the City regarding personnel, law enforcement, land use and public works issues. Jenkins & Hogin also supervises another firm in the prosecution of violations of the City Municipal Code in criminal court.

CITY CLERK

The City Clerk is the local official who administers democratic processes such as elections, access to City records, and all legislative actions ensuring transparency to the public. The City Clerk acts as a compliance officer for federal, state and local statutes including the Political Reform Act, the Brown Act, and the Public Records Act. The City Clerk manages public inquiries and relationships and arranges for ceremonial and official functions.

As Custodian of Official Records, the City Clerk maintains all official City documents, archives and legislative history. The City Clerk's Office oversees the document imaging and records management program. Additionally, the City Clerk conducts and certifies all municipal elections; administers oaths and affirmations; and manages legal requirements for public notice and for the filing of referenda, initiatives, recall petitions, annual Statements of Economic Interest and Campaign Disclosure Statements.

The City Clerk serves as Clerk of the Council attending, monitoring and retaining complete records of all City Council proceedings.

The City Clerk's Office maintains the live web streaming and video archives of City Council meetings and oversees passport acceptance services. Additionally, the City Clerk oversees the City-wide student internship program to encourage high school and college students to participate in local government.

EMERGENCY PREPAREDNESS

In response to numerous floods, fires and storms experienced during the first decade of incorporation, the Emergency Preparedness program was established to develop and implement the structure and protocols for the City's response to future disasters, including the training of City staff.

Under the City Manager's direction, the Emergency Services Coordinator is responsible for maintenance and implementation of the Standardized Emergency Management System (SEMS)/National Incident Management System (NIMS) Emergency Operations Plan within the City. Activities include training staff and affiliated volunteers in preparation for and response to disaster situations; coordinating community outreach to educate residents and businesses about preparing for emergencies; equipping and managing the City's Emergency Operations Center (EOC); overseeing the function and programming of the City's emergency radio systems; managing the City's Dolphin Decal access program and Connect-CTY notification system.

LAW ENFORCEMENT

Public safety services in Malibu include law enforcement, fire and animal control, all of which are provided on a contract basis by Los Angeles County. The general mission of the Department is to protect persons and property, enhance a sense of safety within the community, increase public safety programs and reduce the number of incidents in criminal activity, traffic accidents and traffic violations.

Law enforcement services provided by the Los Angeles Sheriff's Department include general law, traffic, and parking enforcement and administration; summer beach enforcement; and specialized community policing services. Parking citation processing and hearings are also contracted.

Fire services are provided by the Los Angeles County Fire Department. The residents of Malibu pay for these services annually through their property tax bills. Animal Control services are provided by the Los Angeles County Department of Animal Care and Control.

The Fiscal Year 2016-2017 Public Safety budget reflects a 7.5% increase to the contract with the Los Angeles County Sheriff's Department (LASD) including a cost of living increase and a 3.5% increase for the LASD Liability Trust Fund. In future years, the City may be required to incur additional costs as a result of increases in the Liability Trust Fund.

CIVIC CENTER WASTEWATER TREATMENT FACILITY

In 2011, the Los Angeles Regional Water Quality Control Board (RWQCB) approved a Memorandum of Understanding (MOU) with the City of Malibu. The MOU is between the City, the RWQCB, and the State Water Resources Control Board (SWRCB). The MOU commits the City to lead the efforts to work with property owners to design and construct a centralized wastewater treatment facility in the Civic Center area. Under the MOU, both commercial and residential property owners in the Civic Center area are required to fund and connect to the centralized wastewater treatment facility in phases. Phase One requires connection by 2017 and Phase Two by 2022.

On January 12, 2015, the Council certified the Environmental Impact Report, approved the Coastal Development Permit, Conditional Use Permit, Local Coastal Program Amendment, Zoning Text Amendment and Zoning Map Amendment for the Project. On March 12, 2015, the RWQCB approved the Waste Discharge Requirement (WDR) and the Water Recycling Requirements (WRR). On May 13, 2015, the California Coastal Commission (CCC) approved an amendment to the Local Implementation Plan (LIP) of the Local Coastal Plan to allow for the development of the CCWWTF with certain modifications. The Council approved the proposed modifications on June 8, 2015 and the CCC certified the LIP on August 12, 2015.

On January 25, 2016, the Council approved the formation of the City of Malibu Assessment District (AD) No. 2015-1. The AD provides a funding mechanism for the project and will be funded through a variety of State Revolving Fund Loans, Grants and Bond financing.

Department 3010 reflects water quality testing and monitoring costs that are needed as part of the project.

MEDIA OPERATIONS

Media Operations is responsible for the management and development of the City's communications and public relations through the use of traditional media outlets, the internet and social media. This division also oversees the City's website, filming and coordinates special events.

The City of Malibu maintains Malibu City TV, which is also available for viewing on the City's website. Programming includes live and tape-delay broadcasts of City Council and Planning Commission meetings, Mayor and City Councilmember programming and information regarding community events.

LEGACY PARK

In 2006, the City of Malibu purchased a 20-acre parcel in the Civic Center area previously known as the Chili Cook-off site. The site consists of approximately 17 acres of vacant land and 3 acres of commercially developed property. The \$25 million property was purchased using a combination of state and local grants, community donations, debt financing and City General Fund dollars.

The vacant property was developed as a passive park and is now used as the dispersal site for treated wastewater and stormwater in the Civic Center area. The three buildings have remained as commercial tenants and provide a revenue source for the City to fund the payments of the debt financing as well as project planning and design costs, insurance, maintenance and property management of the site. Certain clean water related expenses are also funded by this revenue source including Clean Water (3003) and City Facilities (3007).

The City completed construction of Legacy Park in Fiscal Year 2010-2011.

Debt service is budgeted to Department 7004 and the Operations of the property are budgeted to Department 7008.

FINANCE

As part of the Administrative Services Department, the Finance division is responsible for advising City officials on the City's financial position and condition, and providing timely financial information necessary for decision making. This is achieved through financial reporting and compliance in accordance with generally accepted accounting principles, budget development, and financial systems administration.

The Finance division provides the following services: maintenance of accurate, reliable financial information and records for all City funds; bi-weekly payroll; preparation and distribution of warrants for payment of invoices and contracts; coordination of State, Federal and independent audits of the City's financial management systems and records; oversight of the City's debt service requirements; preparation of accurate and timely annual reports including the annual budget and Comprehensive Annual Financial Report; collection activities to assure payment of accounts receivable; procurement of supplies and equipment and process purchase orders; maintenance of fixed asset records; and monitoring of grant administration.

The Finance division is also responsible for film permit activities, which are provided by a contract service provider, as indicated in line item 5117. The City issues approximately 700 permits per year for commercial filming and still shoots. All costs are recovered through film permit fees.

City Treasurer functions are budgeted in the Finance division (line item 5100-01). The City Treasurer is a contractor appointed by and serves at will of the City Council. The Treasurer assures the administration and management of all City monies and funds and provides accountability to the citizens of Malibu. The Treasurer's responsibilities include the investment of idle funds; and reporting such activities to the City Council and other government agencies. The City Treasurer oversees the City's investment portfolio which is invested in accordance with the City's adopted investment policy.

NON-DEPARTMENTAL SERVICES

The non-departmental program accounts for the centralization of services provided for the benefit of all departments. These services include fixed asset management; insurance premiums; claims settlements; receptionist services; printing; postage; telephone; and equipment leases. Expenses include retiree health premiums and other post-employment benefit costs.

This program accounts for the expenditures related to the Joint Use Agreement between the Santa Monica-Malibu Unified School District and the City of Malibu. This agreement provides for the joint operation and maintenance of school district facilities including ball fields, tennis courts and the swimming pool at Malibu High School. The cost for the joint use agreement has increased in Fiscal Year 2016-2017.

Also included in this program is the risk management function, which maintains responsibility for all the City's insurance needs, including property, workers' compensation, fidelity bonds, special events, and auto liability. The goal of the risk management function is to apply loss prevention and control measures through identification and analysis of loss exposure in the areas of liability, workers' compensation, and property loss. The City is a member of the California Joint Powers Insurance Authority, which provides for the pooling of self-insured losses of its member cities.

The budget for non-departmental services also includes funding for the City's required payments under the Governmental Accounting Standards Board (GASB) for retiree health costs and for the City's CalPERS liability payment.

INFORMATION SYSTEMS

The Information Systems division provides support and advisory services for all City automated information and communications systems. The division supports the City's telephone system as well as the local area network which consists of 28 servers and over 175 personal computers. The Information Systems Fund derives its revenue from a service charge to each department of \$3,500 per computer which contributes towards the maintenance and future replacement of equipment.

COMMUNITY DEVELOPMENT BLOCK GRANT

The Community Support program accounts for funds provided by the Community Development Block Grant (CDBG) program, administered by the Federal Government's Department of Housing and Urban Development (HUD) and passed through Los Angeles County's Community Development Commission (CDC) to the City of Malibu.

CDBG funds provide for service programs and capital projects benefiting low and moderate-income residents of the community. The City receives approximately \$50,000 annually to support such programs. Funding is limited to 15% for public service programs and 85% for capital projects. For Fiscal Year 2016-2017, the service program allocation will be granted to the Malibu Community Labor Exchange.

CITY HALL OPERATIONS

In July 2009, the City purchased a 35,000 square foot commercial office, associated parking and other real property consisting of approximately 6.09 acres at a trustee's sale for \$15 million.

Acquisition and the improvements to the building were funded by the issuance of Certificates of Participation (COPs). Debt service for the COPs commenced in Fiscal Year 2012-2013 and is budgeted at \$1.6 million for Fiscal Year 2016-2017.

For Fiscal Year 2016-2017, \$100,000 has been budgeted in Leasehold Improvements for deferred maintenance items needed at City Hall.

CARBON BEACH UNDERGROUNDING COMMUNITY FACILITIES DISTRICT

In 2008-2009, The City assisted a group of 21 property owners in the Carbon Beach area with the formation of a Community Facilities District (CFD). The CFD provides a mechanism for the property owners to finance the undergrounding of utilities in the Carbon Beach area along Pacific Coast Highway. Each property within the CFD pays for the undergrounding project via annual assessments levied against the properties through the Los Angeles County Assessor's Office.

The CFD places no fiscal impact on the City. Bonds were sold as a part of the process and all costs of issuing the bonds were paid from proceeds of the bond sale. Funds are administered by US Bank, which acts as the fiscal agent and trustee for the CFD. Administrative funding is used for staffing costs associated with the District.

BROAD BEACH UNDERGROUND UTILITIES ASSESSMENT DISTRICT

In 2009-2010, the City assisted a group of property owners in the Broad Beach Road area with the formation of an Assessment District (AD). The AD provides a mechanism for the property owners to finance the undergrounding of utilities in the Broad Beach Road area along Pacific Coast Highway. Each property within the AD pays for the undergrounding project via annual assessments levied against the properties through the Los Angeles County Assessor's Office.

The AD does not place any fiscal impact on the City. Bonds were sold as part of the process and all costs of issuing the bonds were paid from proceeds of the bond sale. Funds are administered by US Bank, which acts as the fiscal agent and trustee for the AD. Administrative funding is used for staffing costs associated with the District.

CIVIC CENTER WASTEWATER TREATMENT PLANT DESIGN COMMUNITY FACILITIES DISTRICT

On June 27, 2011, the City entered into a Memorandum of Understanding (MOU) between the City and the Regional Water Quality Control Board and the State Water Resources Control Board regarding the implementation of the Basin Plan Amendment for the Malibu Civic Center Area Prohibition. The MOU requires that commercial properties in the Civic Center Prohibition Area be connected to a centralized wastewater treatment facility by 2017.

In Fiscal Year 2012-2013, the City formed the Malibu Civic Center Wastewater Treatment Plant Design Phase One Community Facilities District (CFD) No. 2012-01. The CFD provides a mechanism for property owners in the Civic Center area to finance the final design, including the Environmental Impact Report (EIR), construction documents, and to obtain permits associated with the Malibu Civic Center Wastewater Treatment Facility.

On January 25, 2016, the Council approved the formation of the City of Malibu Assessment District (AD) No. 2015-1. The AD provides a funding mechanism for the project and will be funded through a variety of State Revolving Fund Loans, Grants and Bond financing. The AD will refund the CFD.

There is no debt service budgeted for Fiscal Year 2016-2017 as it is anticipated that the CFD will be paid off with the AD.

TRANSPORTATION SERVICES

The Transportation program provides Dial-A-Ride services to Malibu's senior citizens (60 years or older) and disabled citizens. Services are currently contracted with Malibu Yellow Cab and funded by Proposition A transportation funds allocated by the Los Angeles County Metropolitan Transit Authority. Passengers currently pay fares of \$1.00 each way for trips to the Malibu Senior Center, \$2.00 each way for trips within City boundaries, and \$4.00 each way for trips outside City limits. The program annually serves over 450 registered Dial-A-Ride participants, with over 4,500 trips per year.

GENERAL RECREATION

The goal of the Parks and Recreation Department is to provide enriching innovative recreational experiences and well-maintained parks while preserving resources and values of the Malibu Community.

The Department provides a variety of leisure services designed to enhance the quality of life for the residents of Malibu. Services are offered in a professional and cost-efficient manner while responding to the changing needs and priorities of the community. In addition to park development, the Department is also responsible for providing safe and clean parks and recreation facilities in a manner as to protect the natural and cultural resources of each facility. In addition to City-owned parks, the Department also provides a variety of programs at school facilities through a Joint Use Agreement with the Santa Monica Malibu Unified School District. The City's owned and managed facilities are home to several community organizations such as the Malibu Little League, American Youth Soccer Organization, Pony League Baseball, Trancas Riders and Ropers, and Malibu Water Polo Foundation.

The Department also includes an administrative section which represents all management and operating functions of the Department. These functions include administration of capital improvements, budget administration, grant procurement and management, production of the Quarterly Newsletter and Recreation Guide, facility use permits, and administrative support for the Parks and Recreation Commission, Harry Barovsky Memorial Youth Commission and the Cultural Arts Commission. The Department is staffed by 9 full-time employees and 25 – 30 seasonal part-time employees. Contract instructors and more than 50 volunteers are also used to support programs and activities throughout the year.

The Department also provides oversight for the Malibu Bluffs Parkland Master Planning and Environmental Impact Report. The scope of work for the project includes an opportunities and constraints plan for the site, community outreach to address project issues, concerns and priorities, public design workshops and park design based on Council direction and community input. Environmental review documents as required by the California Environmental Quality Act are also part of the scope of work.

AQUATICS

Through a Joint Use Agreement with SMMUSD, the City operates community aquatic programs at the Malibu Community Pool, located at Malibu High School. The department offers more than 1,500 hours of aquatics programming annually. Programs are designed for residents of all ages, and are comprised of fitness and educational classes, coached programs, competitive leagues and certification classes. The competitive aquatic programs such as youth water polo and swim team create developmental programs that benefit Malibu High School athletic teams. Classes and leagues are instructed by City aquatic staff or independent contract coaches.

OUTDOOR RECREATION

The outdoor recreation programs provide public access, interpretive, and educational programs at Malibu Bluffs Park Open Space, Las Flores Creek Park, Legacy Park, and the Malibu Equestrian Park. The City entered into a five year lease agreement with the Santa Monica Mountains Conservancy giving the Conservancy control of Charmlee Wilderness Park and the City control of the 83 acres of open space adjacent to Bluffs Park. The City will be responsible for maintenance of the Bluffs trails and open space during the agreement.

Las Flores Creek Park is a neighborhood park located along Las Flores Creek. The park has on-site parking, picnic tables, playgrounds, benches, and over a 1/3 of a mile of walking trails. The park also has over 45 varieties of native plant species and interpretive signage throughout the park with information about the plants, riparian habitat, the creek stabilization project, and the history of the area.

Legacy Park is a unique park that serves as part of the Civic Center water filtration program. The park is used to retain storm water and urban runoff before being sent to the water treatment facility. The treated water is then returned to the park and used to irrigate the native vegetation. The 17-acre park is made up of five different native habitats connected by more than a mile of walking trails. Park visitors are able to learn about the park and its purpose through interpretive signs and artwork strategically placed throughout the park.

Through a Facility Use Agreement with the Santa Monica Malibu Unified School District, the City operates the Malibu Equestrian Park for public and private use. The Park is home to Trancas Riders & Ropers, which hosts numerous shows and clinics at the park throughout the year.

DAY CAMP

The day camp program consists of supervised activities during the school breaks in the spring, summer, and winter months. Camp programs utilize various sites throughout Malibu, including Santa Monica-Malibu Unified School District facilities. The City offers sports camps that include baseball, basketball, flag football, soccer, softball, surfing, laser tag, tennis, volleyball, and fencing camps. In addition to athletic programming, the City also offers enrichment camps, such as art, music, science, video game design, filmmaking, animation, and Lego™ engineering.

YOUTH/ADULT SPORTS

Youth sports programs are designed for boys and girls from kindergarten through 8th grade. The programs are comprised of competitive and afterschool intramural sports leagues. Each sport program is led by City staff, volunteer coaches or independent contract instructors. Programs for younger athletes include flag football, basketball, coach pitch baseball, and lacrosse with the focus on sportsmanship and fun. In addition to recreation and instruction, the Middle School Sports Program, serves as a feeder program for high school athletics, for volleyball, basketball, lacrosse, cheerleading and tennis.

To serve adults in the community, an evening drop-in basketball program is offered at the Malibu High School gymnasium throughout the year. Drop-in volleyball, softball and soccer will be added to increase the amount of opportunities adults have to engage in athletics. Adult softball leagues are held in the summer and fall at Malibu Bluffs Park.

COMMUNITY CLASSES

Community classes cover a broad spectrum of educational and recreational opportunities for people of all ages and interests. These classes are offered at City facilities as well as shared use facilities. Extensive after-school enrichment programs are offered at Point Dume Marine Science Elementary School.

Community partnerships have been a reoccurrence with Community Classes to increase the department's outreach efforts. Agencies such as the Los Angeles County Malibu Public Library have partnered with the City on programs such as Park Tales and the Leprechaun Gold Hunt.

Participation in recreational activities offers a variety of positive attributes to adults including meeting new people, developing a hobby, improving a skill and socializing. Tiny tot classes (newborn to age 4) focus on providing opportunities for children to learn and develop social skills. Preschool classes provide children with opportunities to develop social skills, basic motor skills, coordination, and self-expression through programs such as art classes, music and theater arts. School-aged children continue to develop social skills and explore their interests while participating in programs such as foreign language, sports, music, acting, computer, dance, and art classes.

SENIOR ADULTS

Programs for seniors and active adults are offered in the City's 1,200 square foot Senior and Active Adult Center, located in the Malibu City Hall building. In addition to recreational and educational programming, outreach programs such as AARP driver safety program, health screenings, and smart money planning provide valuable information to seniors. Free informational lectures are also offered, including downsizing your house, back pain relief, and Alzheimer's awareness. During the week, the Emeritus College uses the Center to provide enrichment classes such as modern poetry, autobiography, and art appreciation. The Center is open Monday – Friday for social interaction and informational services. The Center also has access to informational resources in the form of library materials, DVD's, and computers with internet service and Wi-Fi capabilities. Fitness activities, luncheons, and monthly excursions provide a variety of opportunities for participants to become involved in community programs.

TEENS

Teen programs include activities, classes, and special events for youth 11 to 18 years of age. Emphasis is placed on identifying program activities that direct teens into more community based trainings, meetings, and government interaction.

The Department has begun intergenerational programs in partnership with the Malibu Senior Center. All workshops offer teens an opportunity to interact with older people at a hands-on activity or craft such as cooking, art classes or gardening.

The teen section supports the Harry Barovsky Memorial Youth Commission, which is responsible for carrying out council assignments and reporting to the City Council with their findings. The Youth Commission works with other resource agencies to implement programming and activities to meet the needs of Malibu's teen population.

PARK MAINTENANCE

The primary goal of the Park Maintenance Division is to provide safe and clean facilities while protecting the natural and cultural resources of each facility. Goals and objectives are accomplished through the maintenance of parks and facilities by reliable and well-trained staff.

Maintenance is performed at the following sites:

- Legacy Park / 17-acre passive park – walking paths, interpretive signage, educational areas, observation points, a pond, and stream.
- Trancas Canyon Park / 6.5-acre park neighborhood park – dog park, playground, picnic areas, multi-purpose sports field, restrooms, and on-site parking.
- Malibu Bluffs Park / 10-acre community park - 2 baseball/softball diamonds, 1 soccer field, picnic areas, activity room, office space, restrooms, maintenance building, and on-site parking.
- Malibu Community Pool / 25m x 25yd pool at Malibu High School.
- Malibu High School / Gymnasium, softball field, 4 tennis courts, multi-use practice fields, and 8 outdoor basketball courts.
- Malibu Equestrian Park / Two riding arenas, restrooms, and on-site parking.
- Las Flores Creek Park / 4-acre park, walking trails, playground, interpretive areas, picnic areas, restrooms and on-site parking.

SPECIAL EVENTS

In addition to the multi-event outdoor movie program, the Parks and Recreation Department sponsors five major special events each year: Easter Hopping, Breakfast with Santa, Halloween Haunt, Student Art Show, and Chumash Day. Smaller events held during the year include, Tiny Tot Olympics, CineMalibu, and a summer tiny tot event in the park. Local non-profit groups, including Kiwanis, the Optimist Club, the Boys and Girls Club, and the Malibu Public Library, often co-sponsor events, adding an additional layer of community support and spirit.

The Parks and Recreation Department also works with the Cultural Arts Commission to produce small events like the ongoing Malibu Salon Series and events associated with the art. The Department also coordinates the annual Malibu Library Speaker Series with the Malibu Library.

BUILDING SAFETY

Responsibilities of the Building Safety Division include Permit Services, Building Plan Check, Building Inspection, Permit Issuance, Onsite Wastewater Treatment System Installation Inspections, Geotechnical Plan Review, Grading & Drainage Plan Check, and Grading & Drainage Inspections. This program is committed to providing outstanding customer service while ensuring that each construction project complies with all applicable codes and ordinances to safeguard the protection of the health and safety of the public, public and private property, and the environment while considering sustainability and green building strategies.

WASTEWATER MANAGEMENT PROGRAM

The Wastewater Management Program administers permitting, plan review, and oversight programs for onsite wastewater treatment systems (OWTS). Wastewater Management staff review development projects for OWTS compliance with Local Coastal Program requirements and State and local ordinances. The Statewide OWTS Policy has recently established minimum requirements for local agencies permitting OWTS, and Wastewater Management staff is working to bring City codes and OWTS guidelines into conformance with these requirements. Program staff acts as liaison for the City's Wastewater Advisory Committee, and is contributing technical input to the development of the City's proposed Civic Center Wastewater Treatment Facility. Wastewater Management staff also assist City Code Enforcement and Clean Water Program personnel in conducting investigations of wastewater related spills and illicit discharges. The program is funded through plan review fees and OWTS permit fees. Additional revenues may be derived from grant funding.

CLEAN WATER PROGRAM

This program aims to protect local surface waters (creeks, streams, and the ocean) with actions that minimize and eliminate impacts of human activities that could adversely affect water quality and water supply. Program assignments are implemented using a multi-prong and holistic approach that includes education, outreach, conservation, and regulatory compliance projects.

The Clean Water program is tasked with conforming to mandates promulgated by the Federal Clean Water Act and State Porter Cologne Act to implement water quality and water conservation policy, and prevent or abate discharges of waste to receiving water by curbing residential, commercial, and municipal sources of pollution. Program tools include using and promoting best management practices, inspections of commercial and construction operations, encouraging community stewardship, and ensuring low impact development requirements are implemented citywide. As a local agency partner in several regional clean water regulations and initiatives, the program contributes support to various water quality control projects and studies within the coastal watersheds of the North Santa Monica Bay, including the Malibu Creek and Lagoon Watershed.

SOLID WASTE MANAGEMENT

The Solid Waste Management program implements the City's waste reduction, recycling, household hazardous waste, hauling policies, and other programmatic elements to meet the diversion requirements mandated by the California Integrated Waste Management Act (AB 939) and subsequent state waste management laws. Activities include: residential curbside collection of recyclable post-consumer and green wastes, and refuse; commercial waste disposal and recycling program requirements; special collection events for hard to dispose of items; and public outreach.

PLANNING DEPARTMENT

The Planning Department is responsible for assisting the community in planning for the future, helping manage development consistent with the community vision and meeting City regulatory obligations. Planning Department staff provides professional advice and services in a wide range of areas to members of the public, applicants, outside agencies, the Planning Commission, and the City Council. The staff is also actively engaged with regional and State agency planning efforts. The Planning Department includes Current and Long Range Planning, Biological Services, and Code Enforcement.

Current planning responsibilities include reviewing entitlement requests for conformance with the City's planning policies and standards and conducting environmental review pursuant to the California Environmental Quality Act (CEQA). Other responsibilities include providing information and assistance to community members and applicants on zoning regulations, permit requirements, ongoing projects, and related building and development issues through staffing the public counter, publishing information online and through social media, and responding to public records requests. Email and telephone planning hotlines are also maintained to answer questions within 24 hours.

Long range planning responsibilities include maintaining and updating the General Plan, Zoning Ordinance, and Local Coastal Program (LCP) in response to City Council priorities, regulatory changes and community needs. Responsibilities also include preparation of special studies and plans as requested by the Planning Commission and City Council, and coordination with other agencies (such as the California Coastal Commission and Southern California Association of Governments) on multi-jurisdictional matters such as recreational access/trails, natural resources, affordable housing and transportation planning. Mapping and data services to support planning functions and other City services, especially utilizing Geographic Information Systems, are also provided.

Biological services include review of project biology reports, landscape plans and landscape water conservation compliance, as well as staff support to the Environmental Review Board and the maintenance of Environmental Sensitive Habitat Area (ESHA) maps.

The Planning Department provides staff support to the Planning Commission, Zoning Ordinance Revisions and Code Enforcement Subcommittee (ZORACES), Environmental Review Board and the Subdivision Review Committee. Staff also supports project-specific committees such as the Civic Center Design Standards Task Force.

CODE ENFORCEMENT

Code Enforcement is responsible for enforcement of the Malibu Municipal Code, the City's Local Coastal Program, Building Code, and other State and County laws to promote and protect public health, safety and welfare, and the environment. These duties involve responding to questions on a wide range of code compliance areas from members of the public and outside agencies, and taking in and investigating formal complaints. Code Enforcement performs investigations using records, permitting data and extensive field investigation. Staff also works closely with property owners or other responsible parties to determine the appropriate course of action to resolve issues, and provide assistance through the abatement process.

Code Enforcement actively interacts with other City staff (specifically, Planning, Building Safety, Geology, Environmental Health and Public Works staff) and State and County agencies to share information, clarify requirements, and coordinate solutions for code compliance issues. In cases where standard abatement processes are not successful, the Code Enforcement program works with the City Attorney and City Prosecuting Attorney on administrative remedies and, when necessary, litigation.

STREET MAINTENANCE

The Street Maintenance Program is responsible for all activities related to the repair, replacement, and maintenance of 45 centerline miles of City-owned streets. The replacement value of 7,000,000 square feet of pavement is approximately \$42,000,000 at the current cost of \$6.00 per square foot.

Street Maintenance activities are funded through the General Fund, Gas Tax, Traffic Safety Funds and Waste Management Funds.

FLEET OPERATIONS

The Fleet Operations program is responsible for the cost-effective repair, preventative maintenance, fueling, and eventual replacement of the City's vehicle fleet. This program has also implemented clean air programs relative to vehicles to ensure that the City is doing its part to reduce pollution and improve air quality. The City currently maintains an Electric Vehicle Charging Station in the Malibu Civic Center area.

Fleet Operations are accounted for in the Vehicle Fund, which generates revenue by charging each department with maintenance and rental fees. The City's fleet of twelve vehicles includes two pickup trucks, four sport utility vehicles, and six sedans. Of these twelve vehicles, seven operate on gasoline and five are hybrids.

STORMWATER TREATMENT FACILITIES

In 2007, the City completed the construction of the Civic Center Stormwater Treatment Facility. This facility was the first major component in the implementation of the Malibu Civic Center Integrated Water Quality Management Plan. The facility is a key element in Legacy Park and is designed to reduce pollution in the Malibu Creek, Malibu Lagoon and Surfrider Beach.

Dry-weather and first flush runoff flows, pumped from three major storm drains in the Civic Center area, are treated in a 3-step process of screening, filtering and disinfecting at a rate of up to 1,400 gallons per minute. The City reuses the treated water for irrigation of landscaping in the Civic Center area and Legacy Park.

In 2010, the City also constructed the Paradise Cove Stormwater Treatment Facility. This facility is designed to capture, clean and disinfect up to approximately 1,000 gallons per minute of stormwater and urban runoff from Ramirez Creek and the surrounding watershed. The facility has three different filtration systems to efficiently remove trash, sediment and bacteria.

The budget for Fiscal Year 2016-2017 includes \$50,000 for capital equipment upgrades.

Facility Maintenance activities are funded by the General Fund and the Legacy Park Project Fund.

PUBLIC WORKS/ENGINEERING

The Public Works/Engineering Department manages the development and implementation of the Capital Improvement Program, street and maintenance programs, and engineering activities for the City including: review of proposed land development, formation of new special assessment districts, and the issuance of Special Event and Encroachment Permits.

Land development review involves the review of all new building and or grading permit applications for impacts to public infrastructure, off-site drainage impacts, stormwater quality and flood plain management. It also involves review of all proposed land subdivisions in accordance with the Subdivision Map Act.

The Public Works/Engineering Department also provides staff support for the creation of various utility undergrounding districts, manages the implementation of capital improvement and emergency disaster projects, conducts traffic surveys, and manages the preservation of survey monuments that control the location of subdivision boundaries and road right-of-way centerlines.

Public Works/Engineering activities are funded by the General Fund, Gas Tax, Measure R and Traffic Safety Funds.

LANDSLIDE MAINTENANCE DISTRICTS

The Landslide Maintenance District Program provides administration and maintenance services for three separate assessment districts including approximately 327 properties in the Big Rock Mesa area, 75 properties in the Calle Del Barco area, and 38 properties in the Malibu Road area. Each year the City renews each assessment district through legal procedures defined in the Streets and Highways code. Property owners within each district pay for the services received through annual assessments levied against the properties by the Los Angeles County Assessor's Office.

The program's administrative and maintenance services include the installation and maintenance of dewatering wells, monitoring water levels and slide activities, and preparation of annual assessment and geology reports.

CAPITAL IMPROVEMENT PROJECTS

ANNUAL STREET MAINTENANCE (9002)

This project provides for the reconstruction and maintenance of City streets. Although the City's streets are in relatively good condition, some street sections require a higher level of maintenance, such as pavement overlays, in order to ensure the roadways do not fall into disrepair. In order to ensure that all City streets are maintained in good condition, the City Council approved an Annual Pavement Management Plan which established the work schedule through Fiscal Year 2020-2021. The Annual Street Maintenance Project is implemented in accordance with the approved plan.

LAS FLORES CREEK RESTORATION (9025)

The project includes the restoration of the Las Flores Creek and construction of a neighborhood park. The creek restoration and the majority of the park components including the installation of play equipment, pedestrian trails and parking improvements were previously completed and open to the public in Fiscal Year 2007-2008. The Las Flores Creek Park Phase 2 project includes the design and construction of a pedestrian bridge and a restroom facility. The second phase of this project was completed in Fiscal Year 2015-2016.

CIVIC CENTER WASTEWATER TREATMENT FACILITY (9049)

On June 27, 2011, the City entered into a Memorandum of Understanding (MOU) between the City and the Regional Water Quality Control Board and the State Water Resources Control Board regarding the implementation of the Basin Plan Amendment for the Malibu Civic Center Area Prohibition. The MOU requires that commercial properties in the Civic Center Prohibition Area be connected to a centralized wastewater treatment facility by 2017 and residential properties by 2022.

The Civic Center Wastewater Improvements Project is part of the City's Integrated Water Quality Management Plan that will improve water quality in Malibu Creek, Malibu Lagoon, and Surfrider Beach. The development of a community wastewater collection, treatment, reuse, and dispersal facility will replace existing individual on-site wastewater treatment systems in the City's Civic Center area. Funds from the Communities Facilities District and the County of Los Angeles will be used for professional services needed to prepare an environmental impact report, a coastal development permit, building permits, and construction plans, specifications and cost estimates for the final design of the wastewater treatment, collection, injection, and recycled water systems. The project was placed out for public bidding in Fall 2015 and construction contracts for all three project components (treatment facility, piping and injection wells) were awarded in Fiscal Year 2015-2016. Funding for the construction portion of the project will be provided by an Assessment District comprised of property owners via a State Revolving Fund Loan and bond financing, and grants.

BROAD BEACH BIOFILTRATION PROJECT (9053)

The project will divert dry-weather and stormwater runoff from nine storm drain inlets along a one-mile stretch of Broad Beach Road into a combined porous parking and engineered biofiltration system on the landward (north) shoulder. The project aims to prevent all dry-weather

flows and treat feasible volumes of wet-weather flows that might otherwise discharge to the Area of Special Biological Significance (ASBS). The system will treat runoff through evapotranspiration and biofiltration. This project will serve to promote water quality, preserve and enhance visitor parking for beach access and habitat restoration of some of the slopes above Broad Beach Road adjacent to Pacific Coast Highway. The project was substantially completed in Fiscal Year 2014-2015.

WILDLIFE ROAD TREATMENT AND FOCUSED OUTREACH PROJECT (9054)

The project will install structural Best Management Practices to filter runoff entering two storm drain inlets located on Wildlife Road and Whitesand Place and provide direct outreach to residents of the estimated 1,000 residential units adjacent to Area of Special Biological Significance # 24 (ASBS) within the City limits. The project aims to prevent dry-weather flows and treat feasible volumes of wet-weather flows that might otherwise discharge to the ASBS. The project was completed in Fiscal Year 2015-2016.

PCH BIKE ROUTE IMPROVEMENTS (9055)

This project will improve the existing bike route, install safety improvements and upgrade the bike route along Pacific Coast Highway (PCH) from Busch Drive to the City limits near Leo Carrillo State Beach, a distance of approximately 7 miles. The work includes signage, striping, intersection improvements, grading and overlay work to widen the shoulder in some sections. The project was substantially completed in Fiscal Year 2014-2015.

KANAN DUME ROAD ARRESTER BED IMPROVEMENTS (9056)

The project will promote traffic safety and improve the intersection at Pacific Coast Highway (PCH) and Kanan Dume Road and the existing arrester bed along Kanan Dume Road. The improvements include installing traffic signal detectors in the arrester bed, extending the number 1 left turn lane, realigning, extending and upgrading the existing arrester bed. The channelization of the intersection and arrester bed will promote traffic safety and traffic flow and improve the overall operation of this key intersection. The project was successfully completed in Fiscal Year 2014-2015.

PCH REGIONAL TRAFFIC MESSAGING SYSTEMS (9057)

The project will enable the City of Malibu and other agencies to notify travelers of critical regional traffic and safety information and facilitate traffic flow throughout the region. Changeable Message Signs will be installed at strategic locations along the Malibu Pacific Coast Highway corridor.

PCH INTERSECTION IMPROVEMENTS (9058)

This project will improve key intersections along the Pacific Coast Highway (PCH) corridor in Malibu. The PCH and Big Rock Drive Intersection Improvements Project was successfully completed in Fiscal Year 2014-2015. Staff is currently working on the design of the La Costa Pedestrian Improvements Project to upgrade the existing crosswalk in the vicinity of La Costa Beach.

PCH MEDIAN IMPROVEMENT PROJECT (9059)

The project will promote traffic safety by channelizing the highway, regulating turn movements and improving traffic operations. The project will rehabilitate the existing medians and install new raised medians along Pacific Coast Highway (PCH) from Webb Way to the Puerco Canyon Road.

PCH BUS STOP IMPROVEMENTS PROJECT (9060)

The project will install safety improvements at 11 bus stop locations along Pacific Coast Highway. The project was substantially completed in Fiscal Year 2014-2015.

CIVIC CENTER WAY IMPROVEMENTS PROJECT (9061)

The project consists of widening and improving Civic Center way from Webb Way to Malibu Canyon Road. The project will improve horizontal and vertical sight distances, create additional space for motorists, pedestrians, cyclists, and transit to travel and improve traffic safety and operational flow.

CIVIC CENTER PUMP STATION IMPROVEMENTS PROJECT (9062)

The project will improve water quality by increasing the flow of stormwater from two (2) existing remote pump stations that are a part of the stormwater treatment system in Malibu's civic center area. Improvements include upsizing the existing pump station's pumps, piping, and electrical components. This project was completed in Fiscal Year 2015-2016 as a component of the Las Flores and Malibu Road LID Improvements Project.

LAS FLORES AND MALIBU ROAD LID IMPROVEMENTS PROJECT (9063)

The project will improve water quality by capturing and filtering stormwater runoff. The project will install pre-manufactured biofiltration devices at two locations: Las Flores Canyon Road near the intersection of Pacific Coast Highway and Malibu Road adjacent to 24383 Malibu Road. This project was completed in Fiscal Year 2015-2016.

MALIBU COMMUNITY LABOR EXCHANGE TRAILER REPLACEMENT (9065)

This project will remove and replace the existing office trailer used by the Malibu Community Labor Exchange (MCLE). The MCLE The existing trailer was put into service in 2000 and is in poor condition. The purchase of a new trailer will enable the MCLE to continue serving low and moderate income individuals.

PCH SIGNAL SYNCHRONIZATION (9066)

This project was identified by the PCH Safety Study to improve safety along the Malibu highway corridor. The project will install communication between the existing traffic signals on PCH from Topanga Canyon Road to John Tyler Drive and connect the signals back to Caltrans' Traffic Management Center. The project will interconnect the signals and allow Caltrans to control and operate the signals and the signal system remotely.

SPEED ADVISORY SIGNS (9067)

The City is currently preparing a Traffic Management Plan for the Point Dume neighborhood area. The plan will include an analysis existing conditions and recommendations to reduce vehicle speeds and improve safety for vehicles, pedestrians, and cyclists. This project will implement the recommendations put forth in the plan.

BUS STOP SHELTERS (9068)

This project will install bus shelters at each of the City's three highest volume transit stops. The bus shelter will increase the visibility of the transit system and transit riders, provide transit riders protection from the elements and serve a pilot program for the rest of the Metro transit stops within the City limits.

PARADISE COVE MEDIA FILTERS (9069)

The City completed construction of the Paradise Cove Stormwater Treatment Facility in 2010. The project captures, filters and disinfects stormwater and dry weather flows from Ramirez Creek and the surrounding watershed. Periodically the media filters used in the treatment process must be replaced. This project will replace the media filters so that the facility can continue to treat stormwater and dry weather flows entering Paradise Cove.

CIVIC CENTER STORMDRAIN SYSTEM IMPROVEMENTS (9070)

This project consists of stormdrain improvements in the Civic Center area. The improvements will to promote the flow and circulation of stormwater into Legacy Park.

PCH SHOULDER ENHANCEMENTS (9071)

The City is currently conducting a PCH Parking Study to examine the existing shoulder and parking conditions and develop recommendations to improve safety for motorists, pedestrians and cyclists along the highway. This project will implement the recommendations of the approved final study. The shoulder improvements may include paving, grading, installing small retaining curbs, striping, signage and other treatments to improve safety, parking and circulation.

MARIE CANYON GREEN STREETS (9072)

This project was identified in the City's EWMP. This project includes the installation of biofilters and other devices to capture and treat stormwater and comply with MS4 Discharge Permit requirements.

STORMDRAIN TRASH SCREENS (9073)

This project was identified in the City's EWMP. This project includes the installation of trash screens at the City's stormdrain inlets to prevent debris from entering the stormdrain system and comply with Trash TMDL requirements.

GENERAL FUND GRANT PROGRAM - FY 2016/2017

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Advocates for Malibu Public Schools (AMPS) <i>Project: Malibu Enrichment Study</i></p>	\$20,000	AMPS will conduct a study, the focus of which will be the community's interest and need for enrichment-based programs. Through community meetings, discussions and a survey, AMPS will assess the need for offerings in the arts, technology, language, sports/athletics and recreation.
<p>America Unites for Kids <i>Project: America Unites Malibu Schools Cleanup Effort</i></p>	\$120,000	For two and a half years, America Unites and PEER have spent incredible effort and resources on protecting the innocent children and teachers of the community from the serious and irreversible dangers of PCB's. America Unites has not wavered. They anticipate this situation will be resolved in the next year with the political and financial support of the City of Malibu to work with them to protect the people of Malibu to whom the City serves.
<p>American Tortoise Rescue <i>Project: Fernando Fund</i></p>	\$800	The Fernando Fund was launched in honor of their top volunteer, Fernando Cheng, who died suddenly in his early 40's of a heart attack. His fund helps provide veterinary care to their turtles and to those who cannot afford turtle veterinarians.
<p>Aurelia Foundation <i>Project: Creative Steps – Malibu Transportation</i></p>	\$20,000	The mission of the Aurelia Foundation is to help create and support day programs for adults with disabilities, and was instrumental in the formation of Creative Steps, a program which offers individualized learning experiences with an emphasis on community integration. With locations in Santa Monica and Thousand Oaks, and multiple clients who reside in Malibu, their goal is to continue to develop partnerships with various Malibu entities. The challenge is the program's ability to provide transportation to and from these facilities.

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Boys and Girls Clubs of Malibu <i>Project: Stabilization of Elementary Sites and Social and Emotional Wellness Programs</i></p>	\$40,000	<p>With the recent expansion of the Boys and Girls Clubs of Malibu (BGCM) program to the elementary level in 2014, they continue to align resources and strive towards the creation of a sustainability plan for the future. As they stabilize, the BGCM's financial needs are immediate as they continue to provide vital after-school mentor programs that support Malibu's youth and families academically, socially and emotionally.</p>
<p>California Wildlife Center <i>Project: Wildlife Animal Care & Marine Response and Rehabilitation Programs</i></p>	\$5,000	<p>California Wildlife Center (CWC) provides emergency response/transport, and medical & rehabilitative care to 4,300 sick, injured and orphaned wild animals every year. Their wild patients receive comprehensive, species-specific care with the goal of releasing them back into the wild. In 2015, CWC rescued and cared for a total of 599 animals from Malibu – 289 marine mammals and 310 other wild animals. Fortunately, CWC was able to care for 75 stranded sea lion and elephant seal pups at their Center in Malibu Canyon, and 49 were released back into the wild. Funding is being sought for medical supplies, lab services, feed/fish and vehicle maintenance and fuel.</p>
<p>Children's Creative Workshop <i>Project: Beverly Bennett Scholarship Fund</i></p>	\$3,000	<p>They are seeking funds to give reduced tuition scholarships to three families who could not otherwise afford the care and education that the Children's Creative Workshop (CCW) provides. CCW is prepared to match all funds donated by the City, in order to better assist these families and children.</p>
<p>The Children's Lifesaving Foundation <i>Project: Camp4All Summer Camp Enrichment Program</i></p>	\$25,000	<p>The Children's Lifesaving Foundation is requesting this increased funding from the City of Malibu this year, to partially fund three new, crucial and expanded components to its Camp4All Enrichment Program for Los Angeles' homeless and very "at risk" youth.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Community Assistance Resource Team <i>Project: Community Assistance Resource Team (CART)</i></p>	<p>\$25,000</p>	<p>Community Assistance Resource Team (CART) was formed to help the homeless in Malibu transition to stability, self-respect and self-reliance by developing community based services in partnership with other groups. By helping protect the wholesomeness of the Malibu community, CART seeks to enhance the entire community's safety and security. Grant funding for CART will be used to meet emergency needs for food, housing and clothing. In addition, funds will be used to provide transportation by arranging with local Uber/Lyft/other taxi services to medical and court appointments, laundry and showers, mental health and other service providers.</p>
<p>The Emily Shane Foundation <i>Project: Successful Education Achievement (SEA) Program</i></p>	<p>\$5,000</p>	<p>The Successful Education Achievement (SEA) program provides intensive, individualized mentoring to failing/struggling middle school students in the mainstream classroom who could not otherwise afford any type of much-needed support in order to attain their best academic potential. The education system leaves these children to "fall through the cracks." Children who fit their profile often turn down the wrong paths (drugs, gangs, low self-esteem, bullying, etc.). Their goal is to provide the help they need to allow them to improve. It makes a difference in their lives.</p>
<p>Friends of Malibu Urgent Care Center <i>Project: One Additional Day Extended Hours for Summer Months of July and August</i></p>	<p>\$10,000</p>	<p>The Malibu Urgent Care Center is open one additional hour per day during the summer months, plus every Saturday, Sunday and holidays, etc., which is paid for by the Friends of Malibu Urgent Care Center.</p>
<p>Gan Malibu Early Childhood Center <i>Project: "The Family Room" Infant/Toddler and Parenting Centers</i></p>	<p>\$15,000</p>	<p>Their newest venture into the world of early education is their "Family Room." This new program houses an Infant/Toddler Center, which serves ages 3 months to 24 months, and Parent Education Center which offers lectures, seminars and workshops for both parents and teachers in the community.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Malibu Adamson House Foundation <i>Project: Malibu Adamson House Restoration – Lath House</i></p>	<p>\$5,000</p>	<p>The Malibu Adamson House Foundation, in cooperation with California State Parks, seeks the restoration of the “Lath House” at the Adamson House property. The Lath House is used to cultivate both local and non-native plant species authentic to the property. Current estimates for this project are \$140,000 over two years.</p>
<p>Malibu Beach Esplanade <i>Project: Malibu Beach Esplanade</i></p>	<p>\$7,500</p>	<p>The Malibu Beach Esplanade project is a Linear Park, a promenade linking the recreational, cultural and historical resources of the area with the commercial core and civic center of the City of Malibu and will create safe pedestrian walkways, bikeways, view deck, open space environments, trail linkages and beach access. The Esplanade will make it easier and safer for pedestrians to move between the various parks and beaches and will substantially improve pedestrian access to work, shopping and recreation.</p>
<p>Malibu Community Labor Exchange <i>Project: Malibu Community Labor Exchange</i></p>	<p>\$29,840</p>	<p>The Malibu Community Labor Exchange is the community’s humanitarian outreach to bring dignity to the process of becoming employed and self-sufficient. To this end, they provide a day labor hiring site where men and women workers and employers can connect.</p>
<p>Malibu High School 7th Grade Core Teachers <i>Project: 7th Grade Field Trips</i></p>	<p>\$3,000</p>	<p>For the past few years, the 7th grade class at Malibu High School has taken a one day field trip to Camp Hess Kramer to participate in a retreat that consists of a “ropes course,” rock climbing wall and other team building activities. The field trip has had great success, with over 90% of the entire 7th grade class in attendance during the 2015-2016 school year. The grant proposal will ensure that they have sufficient funds to provide scholarships for the students whose families are unable to pay the full amount for the trip.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Malibu High School Associated Student Body <i>Project: MHS Campus Hydration Stations</i></p>	<p>\$12,000</p>	<p>The MHS student-led Associated Student Body (ASB) and Environmental Clubs, are applying for a grant to fund the purchase of six filtered water hydration stations with bottle fillers to improve access for MHS students and Malibu Community members, to clean drinking water on the MHS campus and sports areas, which are part of the joint use agreement with the City of Malibu. The grant would be used to replace dirty, antiquated drinking fountains that are unsafe and unused. The Environmental Club will fund future maintenance and filter purchases through the sale of MHS logo reusable water bottles. The hydration stations will be personalized with plaques stating that they were provided by the City's grant.</p>
<p>Malibu High School PTSA <i>Project: Straight up Reality Party</i></p>	<p>\$1,800</p>	<p>Malibu High School PTSA is requesting a grant to bring a "Straight Up Reality Party" to Malibu. This is a staged event where local students demonstrate party-associated dangers in a structured group tour setting for parents and educators. Many adults are unaware of these dangers, especially in the age of rapidly evolving social media. This is an established program, which has been successfully implemented in Santa Monica, Simi Valley, Westlake Village, Agoura and Calabasas. It is done in conjunction with local law enforcement, which in this case would be the Lost Hills Sheriff Station.</p>
<p>Malibu High School PTSA/Grad Night <i>Project: Grad Night 2016</i></p>	<p>\$4,000</p>	<p>Grad Night is an annual PTSA-sponsored event, providing the graduates of Malibu High School with a safe and sober celebration the evening following the graduation ceremony. Grad Night 2016 will be held on Wednesday, June 8th at Studio 1342 in Los Angeles. Buses will transport Seniors to the venue where a non-alcoholic bar, food, casino-style games, other entertainment and security will be provided. Seniors will then be transported by bus back to Malibu, where an In 'N' Out truck will meet them and their parents.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Malibu Jewish Center and Synagogue <i>Project: "Hand in Hand"</i></p>	<p>\$20,000</p>	<p>Hand in Hand is an inclusion program that integrates youth of all abilities in an after-school social program. Their program provides young adults with special needs an opportunity to socialize with mainstream peers, learn new skills and enjoy activities like arts and crafts, cooking, music and field trips. Their "peer-buddies" form lasting bonds of friendship in an atmosphere that is engaging, educational, fun and therapeutic. Hand in Hand provides both support, as well as an opportunity for participants to expand their world.</p>
<p>Malibu Presbyterian Church <i>Project: Emergency and Transitional Services for Homeless Women and Children</i></p>	<p>\$24,000</p>	<p>Malibu Presbyterian Church, in coordination with Lost Hills Sheriff Station and Malibu Calvary Church, would like to provide housing for homeless women and children in Malibu. Since no shelter exists in Malibu, this project will be in collaboration with such neighbors as Gabriel's House in Oxnard.</p>
<p>Meals on Wheels West <i>Project: Home Delivered Meals</i></p>	<p>\$3,000</p>	<p>Meals on Wheels West (MOWW) delivers meals to those who cannot shop, cook or otherwise provide for themselves due to illness, disability, age, poverty or temporary lack of mobility. Regular, healthy meals, delivered by a caring volunteer empower MOWW clients to age independently at home. Meals are also available for short-term rehabilitation following illness or hospitalization. The MOWW model is cost efficient thanks to volunteer energy of more than 20,000 hours per year. Their goal is to enable neighbors to continue living in their own homes for as long as their health allows, reducing both hunger and isolation.</p>
<p>Medicine for Humanity <i>Project: Medicine for Humanity</i></p>	<p>\$10,000</p>	<p>Founded in 1995 by Malibu residents Dr. Leo Lagasse and his wife Ann, Medicine for Humanity is a medical care and teaching organization dedicated to improving the health of women and mothers throughout the developing world. For the last seven years, their focus has been on obstetrical fistula care, as well as creating partnerships and sustainable medical partnerships.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>The Nature of Wildworks <i>Project: Wildlife Outreach Educational Presentations</i></p>	<p>\$5,000</p>	<p>Wildworks is a premier provider of live animal environmental programs for the Santa Monica Mountains National Recreation Area, including the National Park Service, CA State Parks, Santa Monica Mountains Conservancy, Mountains Restoration Trust, and others. Experiencing wildlife up close helps to engender respect for all living things. Safe programs presented in entertaining and informative formats help dispel fears and promote healthy, humane coexistence with wildlife. Wildworks is requesting funds for the continuation of these invaluable outreach programs in Malibu.</p>
<p>New Directions for Veterans <i>Project: Bridge and Transitional Housing for Homeless Veterans</i></p>	<p>\$5,000</p>	<p>New Directions for Veterans' bridge and transitional housing program for homeless veterans provides food, shelter, comprehensive case management, mental health and substance abuse counseling, job education and training, assistance addressing legal issues that may interfere with housing and employment, housing placement assistance, voucher-based rental assistance, and help accessing mainstream and veteran-specific benefits for homeless male and female veterans.</p>
<p>Ocean Park Community Center <i>Project: Malibu Task Force on Homelessness/Homeless Outreach Services</i></p>	<p>\$38,000</p>	<p>The Malibu Task Force on Homelessness is a group of volunteers focused on one task: engaging a professional service provider such as Ocean Park Community Center (OPCC) to address the many, complex needs of homeless individuals in Malibu. OPCC is a well-established, professional agency which provides integrated direct services, as well as needed links to outside resources, to many homeless individuals, including those coping with physical and mental illness, substance abuse, domestic violence and more. OPCC emphasizes finding permanent housing – especially for the most vulnerable. The Malibu Task Force on Homelessness and the OPCC are requesting that the City of Malibu fund the base salary of one (out of two) full-time OPCC outreach workers in the City of Malibu.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Poison Free Malibu <i>Project: Educational Campaign on Rodent Poisons and Toxic Pesticides</i></p>	<p>\$5,000</p>	<p>The City of Malibu and several other local cities have passed Resolutions opposing the use of rodent poisons due to the harm inflicted on wildlife, pets and children. Pesticides are now banned in the unincorporated Santa Monica Mountains Coastal Zone. They are asking for support for their campaign to educate the public, businesses and the government to not use these poisons and other toxic pesticides, and to provide alternative strategies to control pests.</p>
<p>Saint Aidan's Episcopal Church <i>Project: Driveway Expansion & Renovation to Accommodate Community Needs</i></p>	<p>\$25,000</p>	<p>During an emergency situation, this project will provide the people in western Malibu with access to disaster relief and a safe haven, as well as provide emergency vehicles and personnel with access to a staging area to administer relief to those persons affected. This safe haven will be protected by constructing a small wall along the north side of the church's parking area which will preserve and protect the use of a staging area from soil movement due to heavy rains or earthquakes.</p>
<p>The Sharifololama Foundation <i>Project: TSF Funding</i></p>	<p>\$10,000</p>	<p>Funding for families with financial needs.</p>
<p>The Shark Fund <i>Project: Malibu High School Field Lights</i></p>	<p>\$42,000</p>	<p>The Shark Fund is the sole fundraising organization for Malibu Middle and High School (MHS). As the City of Malibu is aware, as part of the Conditional Use Permit for the Santa Monica Malibu School District to install field lights, the City Council stipulated that the lights be taken down at the end of the school year and then put back up prior to the start of the new school year at the District's expense. At the time of voting, the cost was estimated at approximately \$6,000 per year. However, the accurate number is \$42,000, not including the cost of fixing the damage to the track that occurs each time. The District will no longer pay these costs as of Fall 2015, so it is now part of the MHS general budget. The Shark Fund requests assistance to diminish these costs.</p>

NAME/TITLE OF PROJECT	AMOUNT REQUESTED	PROJECT ABSTRACT
<p>Standing on Stone Community Outreach <i>Project: Emergency Services and Home Sweet Home</i></p>	<p>\$10,000</p>	<p>Emergency Services provide an opportunity to rescue those in great need from the ravages of lack of nutrition and living outside in poor weather with no cover. By minimizing these hazards through food distribution and cover, they are able to save many homeless and needy men, women and children from unhealthy and dangerous conditions, some who have been to the point of death. They also provide transportation to clinics, hospitals and shelters. Home Sweet Home provides funds to get their members into permanent housing by financing their first and last rent, helping with moving and contributing furniture and other necessities.</p>
<p>Tales by the Sea <i>Project: Tales by the Sea</i></p>	<p>\$2,000</p>	<p>Tales by the Sea hosts four storytelling concerts each year, focusing on the personal story. Each concert features professional tellers and reflects on specific themes. Tales by the Sea honors the art of storytelling for its 21st year this season. They also host Poetry by the Sea concerts quarterly. Each concert is an opportunity for people to gather, to ponder and to deepen the relationships that strengthen the community. All concerts are open to the public and free of charge.</p>
<p>Young Actors Project <i>Project: Young Actors Project Special Needs Inclusion Program</i></p>	<p>\$7,500</p>	<p>Young Actors Project is a very active youth service organization, providing after school and summer performing arts programs to local families since 2005. Young Actors Project's productions are inspiring community events and they offer a healthy, positive, safe, creative and supportive environment for young people to grow and thrive. They are seeking a grant to continue to support and mainstream children with developmental disabilities, such as Cerebral Palsy, Aspergers, Autism and special learning needs into their life changing arts programs.</p>

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

MANAGEMENT AND ADMINISTRATIVE SERVICES

1. Civic Center Wastewater Treatment Design/Assessment District

This project involves the development of a centralized wastewater collection, treatment, reuse and dispersal facility. In order to fund the project, an assessment district was formed on January 25, 2016 by the property owners that benefit from the project. The project also includes the acquisition of property and submission of an application for a State Revolving Fund loan and grant. The Final EIR, LCP Amendment (LCPA), Zoning Text Amendment (ZTA), Zoning Map Amendment, Coastal Development Permit (CDP) and Conditional Use Permit (CUP) for the project were approved by the City Council on January 12, 2015. On March 12, 2015, the Los Angeles Regional Water Quality Control Board (LARWQCB) approved a Waste Discharge Requirement Permit and Water Reuse Requirement Permit. The project was approved by the California Coastal Commission (CCC) in May 2015. The City applied for funding from the State Revolving Fund Loan and grant program, which, in conjunction with a small bond issuance will provide funding for the project. Construction of the project will begin in Fiscal Year 2016-2017.

2. Santa Monica College Satellite Campus / Sheriff's Substation

The City and Santa Monica College (SMC) are interested in bringing a satellite campus for the college into the City's Civic Center area on the County parcel adjacent to the Library. The County and SMC have agreed to a plan to construct a 25,310-square foot community college that will include 5,640 square feet of space to be used by the Sheriff's Department as a substation. The Final EIR was approved on February 29, 2016. Construction of the project is expected to begin in Summer 2016.

3. City Website and Media Operations

This project includes making regular updates to the City website, such as adding the ability for viewers to watch City TV Channel 3, view City videos and photo archives, and link to all City social media channels. Other media information projects that were launched include community surveys and One Call to City Hall.

4. Oversight of Library Services and Use of Library Set Aside Funds

The City and Los Angeles County Library launched the 2015 Speaker Series in January 2015 with 10 speaker events, including: Education expert Dr. Paul Cummins; Kidnap survivor and activist Elizabeth Smart; Olympic swimmer Dara Torres; Climate change environmentalist Bill McKibben; Best-selling author Daniel James Brown; and an environmental panel of Jonathan Parfrey, Gary Gibbs and Sarah Myher. In addition to the Speaker Series, Library Set Aside Funds are being used to provide additional service hours, fund services at the Malibu Boys and Girls Club, fund a teen librarian and enhance the library's collections.

5. Licensing Program

The program includes developing trademarked logos and identifying companies that may develop a license with the City to market a variety of products. The goal of the program is to develop a potential new revenue stream for the City. The City has now successfully trademarked two logos with the US Patent and Trademark Office.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

PARKS AND RECREATION

6. **Legacy Park Interpretive Program**

Educational hikes continue to be offered at Legacy Park that focus on winter migratory birds and Spring native plant walks. A self-guided smartphone app was created and launched, and signage with QR codes will be placed in various locations in the park to correlate with the audio narrative on the smartphone app. Additional educational programs and collaborations with the Los Angeles County Malibu Library will be coordinated as part of the Legacy Park Art Enhancement Project.

7. **Skate Park Facility**

On October 14, 2015, the City Council directed staff and the Malibu Bluffs Parkland consultant to include a skate park in all design options for the Bluffs Parkland Master Plan. The final Park Design and Master Plan, including a skate park, is scheduled to be presented to the Parks and Recreation Commission on April 19, 2016, and will go to the City Council for approval prior to the end of Fiscal Year 2015-2016.

8. **Park Monitoring System (On hold)**

Staff met with a local security company and discussed equipment, cost and the general feasibility of installing web-based cameras to monitor and track the use of Malibu Bluffs Park and Trancas Canyon Park. Staff is evaluating options. The Parks and Recreation Commission reviewed park monitoring and surveillance and has tabled the item to a later date.

9. **Parks and Recreation Outreach Video**

Several videos featuring recreation events, parks and programs have been produced covering Malibu Bluffs Park, Trancas Canyon Park, Chumash Day, the Halloween Carnival and programs at the Malibu Community Pool. The video outreach project will continue to help highlight and promote current and new programs offered through the Parks and Recreation Department.

10. **Michael Landon Center Expansion (On hold)**

This project includes increasing the square footage of the Landon Center to allow more programming opportunities for the public. The Request for Proposals (RFP) for design services for the Michael Landon Center expansion is complete, but further action has been placed on hold pending completion of the Bluffs Parkland Master Plan.

11. **Playground with a Purpose Project**

The Playground with a Purpose project at Bluffs Park is in its final phase, which includes interpretive signage. Interpretive information for signage is complete and illustrative artwork with a continuous theme linking the playground components is under review by staff. Access to the interpretive information from signage will be updated to accommodate new technology consistent with the interpretive program at Legacy Park. Interpretive signage will be added to the playground locations using QR code technology and a smartphone app. The app will be available to park visitors sometime in late Summer 2016.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

12. **Annual Events**

The major annual event traditionally held at Bluffs Park is Chumash Days, a 2-day, weekend event that features an intertribal gathering and Native American dancing as part of a traditional powwow ceremony. The event draws thousands of visitors and includes a wide variety of vendors, crafts and games for children. The Cultural Arts Commission has created Concert on the Bluffs, an event that will host a 30-piece orchestra, dancers from the New York City Ballet, local film and music composers, and special guest artists. The event will take place at Malibu Bluffs Park on June 12, 2016 from late afternoon until sunset. Community businesses and private donors are assisting with the funding of the event, but the Commission hopes to eventually seek an outside, established organizer to jointly produce the event in future years, once the event has been successfully established.

13. **Integrated Pest Management Program (Completed)**

On October 28, 2013, the City Council adopted an Integrated Pest Management (IPM) Policy and Program. Staff is implementing IPM principles as best management practices in addressing pests. An integrated pest management group, comprised of representatives from local environmental groups, local businesses, education and interested parties from the community, was established. The group meets periodically to discuss sustainability issues facing the City.

14. **Bluffs Park Open Space Master Plan**

The Malibu Bluffs Parkland property (Parkland) encompasses 83 acres of undeveloped open space adjacent to Pacific Coast Highway (PCH), and directly south of Pepperdine University. Master planning for the project will also include 10 acres that make up Malibu Bluffs Park, and 1.75 acres of vacant land known as the Crummer Property. In January 2015, Michael Baker International was hired to conduct a full Park Master Plan and Environmental Impact Report (EIR). The scope of work includes preparing an opportunities and constraints report, geotechnical work, park design services and environmental documents per the California Environmental Quality Act (CEQA). It is anticipated that the EIR process will begin sometime in Summer 2016 after Council has approved a park design.

15. **Legacy Park Art Enhancement Plan**

In July 2015, the firm of Hodgetts and Fung Architectural Design was hired to conduct community outreach, prepare conceptual design plans, identify uses for additional water from the wastewater treatment facility, and create recommendations for placement of additional art in Legacy Park. A draft of the Legacy Park Art Enhancement Plan was sent to the City Council in December 2015, with Council approving the design and sending it back to the Cultural Arts Commission to review the final design, which includes project and phasing costs, and identifying potential funding methods. The Cultural Arts Commission will review the final plan and send a recommendation to the Council sometime in April or May 2016.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

ENVIRONMENTAL SUSTAINABILITY

16. Permitting Software Program

The project includes a technology upgrade to the City's permitting software that will allow for advanced streamlining of the City's permits. The first phase is expected to be fully operational by May 2016.

17. Rainwater Harvesting Program

The Rainwater Harvesting Program will focus on new projects and incentive programs for existing development. This program will reduce the amount of water consumption, maximize the use of existing water resources and increase the sustainability of water use in the City. Staff is managing a Prop 84 Integrated Water Resources Management (IWRMP) project under the Greater Los Angeles IRWMP grant awarded by Department of Water Resources and has partnered with Los Angeles County Waterworks District 29 and West Basin Municipal Water District. The project includes conservation incentives and rebates for rain barrels and small cisterns, workshops, outreach, site evaluations, and special on-on-one participant assistance.

18. Local Agency Management Program

The Statewide OWTS Policy (effective May 2013) established minimum requirements for local agencies permitting OWTS. Wastewater Management staff is working with the assistance of an environmental engineering consultant to bring City codes and OWTS guidelines into conformance with the Statewide minimum requirements. The work involves: Writing a Local Agency Management Plan (LAMP) for ongoing OWTS oversight by the City of Malibu; revisions to the OWTS standards in the Malibu Plumbing Code and LCP/Local Implementation Plan; developing a new water quality assessment program; and documentation of Total Maximum Daily Load (TMDL) compliance procedures for OWTS in Malibu.

19. Grease Receptor Ordinance

Staff is collaborating with RMC Water & Environment, consultants for the City's Civic Center Wastewater Treatment Facility, to ensure the proposed Grease Receptor Program meets the requirements of the plant design to accept this high strength waste with the efficient and acceptable removal of grease, fats and oils from the generating facilities, such as restaurants and fast food establishments. This will reduce the impact to the OWTS servicing these facilities and increasing the sustainability of the OWTS.

20. Integrated Wastewater Information Management System (IWIMS)

Staff continues to work on further enhancements to the capabilities of IWIMS. Reporting templates will be created for the dissemination of essential information regarding the City's OWTS. Enhancements will include the development of GIS capabilities of the IWIMS system to provide mapping capabilities.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

21. **Settlement Agreement**

City staff continues to ensure the City meets the terms and requirements of the settlement agreement with NRDC/Santa Monica Baykeeper (now LA Waterkeeper) by managing the various compliance activities and reporting. Elements of the Ocean Health Near-Shore Water Quality Assessment program are in process. The temporary best management practices (BMPs) installed at the storm drains within and outside the Area of Special Biological Significance (ASBS) have been removed and replaced by the permanent structural BMPs installed by Public Works as part of the Wildlife Road and Broad Beach Road Prop 84 projects completed in 2015, and on Las Flores Canyon Road and Malibu Road. Public Works is overseeing a runoff monitoring program to demonstrate efficacy of those structures in accordance with the Agreement.

22. **Clean Water Monitoring Program**

This ongoing program involves developing a stream and ocean monitoring program, as well as an effective community outreach plan to promote current water quality data and the improvements that have been made to local water bodies. This may include use of rapid indicator methods and upgrades to the City's website to inform the public. Ongoing monitoring programs for regulatory compliance include TMDL monitoring at Malibu beaches and Malibu Creek. Other regulatory compliance methods include Total Maximum Daily Load (TMDL) monitoring at Malibu Beaches and Malibu Creek for bacteria and trash. The Coordinated Integrated Monitoring Program (CIMP) required by the municipal stormwater permit was approved by the LARWQCB in November 2015. This program includes additional stream monitoring. The City is the lead agency on this program. Following a request for proposals, a funding allocation, Professional Services Agreement to conduct the CIMP, and an MOU with County of Los Angeles and Los Angeles County Flood Control District for cost sharing will go to the City Council for approval in Spring 2016. Additional opportunities for integrating existing water quality information into the City's near shore ocean water quality project, a sanitary survey program, and monitoring of subwatersheds identified for BMP projects in the Enhanced Watershed Management Program (EWMP) are under development.

23. **Clean Water Regulations Compliance**

Staff coordinates the Clean Water Team, an interdepartmental working group tasked with ensuring the City's compliance with all State and Federal water quality related regulatory requirements. This group meets bi-monthly to review progress on meeting compliance deadlines. The following regulatory and legal obligations are being addressed by the Clean Water Team: ASBS; NPDES stormwater permit (MS4); NRDC/LA Waterkeeper lawsuit; TMDL compliance for seven TMDLs; OWTS management; and Civic Center Prohibition/MOU compliance.

24. **Water and Energy Conservation**

Staff is working with partner agencies and the City's Media Information Office to plan additional public information and outreach programs, including a water conservation campaign, leveraging resources with the Malibu Area Conservation Coalition (MACC) where feasible. Staff is also working with a consultant on projects relating to water conservation outreach, such as organizing, promoting, and staffing a community exposition with an optional garden tour, producing four public service announcements and a drought-tolerant garden photo gallery, and branding a City water program. Opportunities to conserve water in Malibu are promoted and existing water conservation rules are enforced. Staff continues to respond to complaints submitted with the Water Waster Report available on the City website.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

25. **Solid Waste Management Program Enhancements**

An audit of the City's Solid Waste Management Program included recommendations for enhancements and changes. Staff will review the recommendations and revise the program, with direction from City Council, to increase diversion of waste from the landfill in accordance with the new statewide goal of 75% diversion, improve efficiency of the program, increase opportunities for outreach, and bring more sustainability programs to the community. Staff is working on a Non-Exclusive Residential Solid Waste Franchise Agreement that will include minimum diversion rates, electronic and universal waste collection, bulky item pickups, development of a food waste program, and collection at bus stops, public parks, and community events.

PLANNING

26. **Formula Retail**

On November 4, 2014, the voters of the City approved ballot initiative Measure R, which contained a set of restrictions designed to limit the development of "formula retail" establishments in the City. Measure R defined "Formula Retail" business as any business for which there are ten or more locations worldwide that share two or more specified criteria. Measure R: (i) prohibits any new Formula Retail tenant larger than 2,500 square feet; (ii) requires all Formula Retail tenants to obtain a conditional use permit; and (iii) prohibits a shopping center from leasing more than 30% of its square footage, or 30% of its leasable retail spaces, to Formula Retail tenants. The second component of Measure R requires voter approval of every new proposed commercial project over 20,000 square feet.

Shortly after the passage of Measure R, owners of commercial-zoned properties in the Civic Center area brought a lawsuit against the City seeking to enjoin the City from enforcing Measure R and, on December 14, 2015, the trial court held that Measure R is invalid and enjoined the City from enforcing Measure R. Proponents of Measure R intervened in the case and filed an appeal, which is still pending.

Should the trial court's decision being overturned upon appeal, Measure R will be reinstated and commercial or mixed use projects over 20,000 square feet will require voter approval. At this time, the City can provide no assurance regarding whether voter approval will be required to develop large commercial and mixed use projects in the Civic Center area.

27. **LCP Public Access Map (Complete)**

Staff submitted an updated LCP Public Access Map to the California Coastal Commission (CCC) in 2012. A CCC hearing was conducted in 2014, and the Commission provided suggested modifications for the LCP Public Access maps. The City Council accepted the suggested modifications and added an asterisk to the Tivoli Cove Condominium based on public comments. The updated maps were sent back to the CCC and are pending final certification by the CCC.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

28. **LCP ESHA Map**

This project includes preparing an update to the existing 2002 LCP ESHA map with parcel-specific data acquired in the last 13 years. Phase 1 of the project will include creating biological assessment guidelines, updating submittal requirements, and data collection. Phase 2 includes final map preparation, review by the City Council, and then map submittal to the CCC as an LCPA.

29. **LCPA Trails Incentives Plan (Complete)**

In December 2015, the CCC conditionally certified the Trails Incentives Plan and map. Should City Council accept the CCC modifications in Spring 2016, staff will begin implementing the incentives program.

30. **LCP Park Land Map**

In December 2015, the CCC conditionally certified an update to the LCP Park Land Map. Should the City Council accept the CCC modifications in Spring 2016, staff will begin utilizing this map in project review.

31. **Comprehensive Zoning Code / LCP Update**

The comprehensive update will eliminate numerous inconsistencies between the documents while incorporating current State and Federal laws. The update will include revisions to all of the items on the Council's priority zoning text amendment (ZTA) list, including remodels, temporary use permits, and multi-family building size limitations. Phase 1 of this project will include priority ZTAs. Staff anticipates having a final draft of Phase 1 of the Zoning Code Update in Fall 2016.

32. **General Plan/LCP/Zoning/LCP Map Update**

The project includes correcting numerous inconsistencies in the LCP Land Use Map/ Zoning Map, General Plan and the MMC Zoning Map. A comprehensive review of all maps will be conducted, and a map amendment will be brought to the Planning Commission, City Council and CCC. Phase 1, including a consistency analysis between the LCP Maps and the MMC Zoning Map, and preparation of working maps showing these discrepancies, has been completed. Phase 2 work for this fiscal year will focus on final edits to a new digital version of the General Plan map, and bringing forward a General Plan Amendment to update the map. Phase 3 will include amendments to update the MMC Zoning and LCP Maps.

33. **Citywide Lighting Ordinance**

City Council requested that a citywide lighting (dark sky) ordinance be prepared. A consultant was hired, and Phase 1 required a comprehensive report on the different lighting ordinance options. Phase 2 includes the drafting of the ordinance and Lighting Zone Map with anticipated review by City Council in late 2016.

34. **Civic Center Design Standards/Specific Plan**

Work includes the preparation of design standards for the City's Civic Center area. A consultant team was hired to work with the Design Standards Task Force and the community in developing design standards. The consultant presented the results of work to date at a joint meeting of the City Council and Planning Commission in February 2016. City Council directed staff to return with options for expedited preparation of a specific plan for the Civic Center area in lieu of completing design standards.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

35. **Sign Ordinance ZTA/LCPA**

This multi-year effort consists of a comprehensive update to the City's sign regulations through a ZTA and LCPA. In April 2014, the Planning Commission discussed the ordinance that required more revisions and additional meetings. Due to workload and the specialized nature of sign regulations, an RFP for consultant proposals that includes a public outreach program will be prepared. The selected consultant will prepare a draft ordinance for Planning Commission consideration in Spring 2017.

36. **Anti-Coagulant Rodenticide Ordinance/Program (Complete)**

City Council initiated this ordinance as an amendment to the LCP in November 2014. A prohibition ordinance will be presented for City Council consideration in May 2016. Staff will implement strategies and programs to encourage poison-free rodent control.

37. **Roof-Mounted Solar Permit Streamlining (Complete)**

Planning staff worked in coordination with ESD's Building Safety Division to bring to City Council an ordinance to streamline permitting of small residential rooftop solar installations, as required by Assembly Bill (AB) 2188. City Council adopted Ordinance 396 in August 2015, ahead of the AB 2188 September 2015 deadline.

38. **Parking Lot Safety Standards (Complete)**

On March 28, 2016, the City Council adopted an ordinance establishing parking lot safety standards that require bollards or other protective devices to be installed adjacent to outdoor pedestrian seating areas. The new ordinance includes a 24-month amortization period to allow adequate time for existing property owners to either come into compliance or remove outdoor seating areas. Staff will develop an education/outreach program as part of a program to help new and existing businesses ensure compliance with the standards.

39. **Housing Element LCP Amendment**

The City's 2008-2014 Housing Element was certified by the Housing and Community Development Department (HCD) in August 2013. In addition, the 2013-2021 Housing Element was certified by HCD in February 2014. Staff submitted the necessary amendments to the LCP to incorporate the programs and overlays to the CCC for certification in December 2013, and is working with the CCC to complete the submittal. Once the CCC conditionally certifies the amendments, staff will bring suggested modifications to City Council for consideration.

PUBLIC WORKS

40. **Annual Tree Maintenance Program**

This program requires the identification of priority tree trimming maintenance in accordance with the citywide inventory, so that the City's urban forest is protected, the roadways are clear of potential hazards, and liability to the City is minimized. Staff continues to maintain the City's urban forest in accordance with inventory recommendations.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

41. Annual Sidewalk Maintenance Program

Staff continues to maintain the City's existing sidewalk system (concrete, decomposed granite and permeable pavers) in an effort to reduce the potential liability of slip and fall injuries.

42. Annual Street Overlay Program

This program includes the design and construction management of annual street overlay projects throughout the City in accordance with the City's approved Pavement Management Plan (PMP). Completion of the FY 2015-2016 work marked the completion of the City's five-year PMP within a four-year period.

43. PCH Regional Traffic Messaging System

This project consists of installing permanent changeable message signs (CMS) along PCH at strategic locations throughout the City. The project will enable the City and other agencies to notify travelers of critical regional traffic and safety information. The City will hire a consultant to design the project and staff will manage the design, permitting and construction phases of the project.

44. Pacific Coast Highway at La Costa Pedestrian Improvements

The project will install a pedestrian signal on PCH in the La Costa Beach area, between Rambla Vista East and Rambla Vista West, to improve safety for pedestrians and motorists. Staff is working with the design consultant, Caltrans representatives and nearby homeowners to finalize the design, secure permits and easements and prepare the project for public bidding.

45. PCH Raised Median and Channelization from Webb Way to Puerco Canyon Project

The PCH Raised Median and Channelization Project will improve and install raised medians along PCH/SR-1 from Webb Way to Puerco Canyon Road, a distance of approximately two miles. The project will channelize the highway, regulate turn movements and improve the regional operational flow of traffic. The City hired a consultant to design the project. Staff will manage the design and coordinate the Caltrans permitting process.

46. Civic Center Way Improvements Project

This project will improve horizontal and vertical sight distance, create additional space for motorists, pedestrians, bicyclists and transit to travel along Civic Center Way. Funding for the design and construction of this project will be provided by Measure R and administered by MTA. The City hired a consultant to design the project. The City will manage the design and coordinate the bidding and construction phase of the project.

47. Pacific Coast Highway Shoulder Enhancement Project

This project will improve the existing highway shoulder at strategic locations along PCH/SR-1 to provide sufficient room to accommodate multiple users simultaneously. This project will enhance the shoulder to reduce conflicts and potential for collisions and, thus, serve to reduce incident delay on the highway. Funding for the design and construction of this project will be provided by Measure R and administered by MTA. Staff will execute the funding agreement and begin project design.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

48. **Enhanced Watershed Management Plan (New)**

The City partnered with Los Angeles County Public Works and the Los Angeles County Flood Control District to develop an Enhanced Watershed Management Program (EWMP) for the North Santa Monica Bay Coastal Watersheds area, including a portion of the Malibu Creek Watershed within the City of Malibu limits, to comply with the Los Angeles County Municipal Separate Stormwater System (MS4) Discharge Permit. Through this collaborative development of an EWMP, the City can design projects to protect local water bodies and evaluate opportunities to implement projects that address: non-stormwater runoff prevention, stormwater runoff retention, pollution prevention, flood control and water supply. Once the EWMP is approved by the Regional Water Quality Control Board, City will work with implement the projects and programs it identifies.

49. **Office Trailer for Malibu Community Labor Exchange (New)**

This project includes the purchase and installation of an office trailer to replace the existing office trailer owned and operated by the Malibu Community Labor Exchange (MCLE) in Malibu's Civic Center area. The City is assisting MCLE to secure a location for the new trailer.

50. **Street Sign Retroreflectivity**

The City is in the process of replacing all the City street signs with new upgraded signs to increase the signs' retroreflectivity in accordance with the Manual of Uniform Traffic Control Devices. In Fiscal Year 2015-2016, the City replaced approximately half of City street signs. In Fiscal Year 2016-2017, the City will replace the remaining street signs.

51. **Civic Center Wastewater Treatment Facility**

This project involves the development of a community wastewater collection, treatment, reuse, and dispersal facility for the City's Civic Center area. The construction contracts to build the treatment facility, piping and injection wells were awarded in Fiscal Year 2015-2016. The City hired a consultant team to perform construction management to ensure that the projects are deliver on schedule and within the budget allotted.

52. **Pacific Coast Highway Signal Synchronization Project**

The project will install communication between the existing traffic signals on PCH from Topanga Canyon Road to John Tyler Drive and connect the signals back to Caltrans' Traffic Management Center. The project will interconnect the signals and allow Caltrans to control and operate the signals and the signal system remotely. The City hired a consultant to design the project. Staff will manage the design and work with Caltrans to permit the project for construction.

53. **Bus Stop Shelters**

This project will install bus shelters at each of the City's three highest volume transit stops. The bus shelter will increase the visibility of the transit system and transit riders, provide transit riders protection from the elements and serve a pilot program for the rest of the Metro transit stops within the City limits.

54. **Civic Center Storm Drain System Improvements**

This project consists of storm drain improvements in the Civic Center area. The improvements will to promote the flow and circulation of stormwater into Legacy Park. Staff will manage the design and construction process.

CITY OF MALIBU

FISCAL YEAR 2016-2017 WORK PLAN

55. Winter Canyon Biofiltration Project

The Enhanced Watershed Management Program identified Winter Canyon as an area for the installation of biofilters. This project will treat stormwater and enable the City to meet its TMDL requirements. The City will hire a consultant to analysis the watershed and design the project accordingly and staff will manage the design and permitting process. Staff is currently seeking grant funds for the construction phase of the project.

56. Marie Canyon Green Streets

The Enhanced Watershed Management Program identified the Marie Canyon as an area for the installation of biofilters and other devices to capture and treat stormwater and comply with MS4 Discharge Permit requirements. The City will manage the design, permitting, bidding, and construction phase of the project.

57. Storm Drain Trash Screens

The Enhanced Watershed Management Program identified the need for trash screens on the City's storm drains in order to comply with Trash TMDL requirements. The City will manage the design, permitting, bidding, and construction phase of the project.

58. Pacific Coast Highway Parking Study

This study is examining the existing shoulder conditions, traffic collision history and developing recommendations to make parking on PCH safer for all modes of travel. Staff is managing the study consultant team in conjunction with representatives from the Southern California Association of Governments. The study is anticipated to be completed in Winter 2016 and, once the study is approved, the City will begin implementation of the approved recommendations.

59. Remote Monitoring and Control of Stormwater Treatment Facility

The City is in the process of upgrading the two stormwater treatment facilities (Civic Center Way and Paradise Cove) with telemetry equipment that will enable staff to monitor and control the stormwater treatment facilities remotely.

60. Point Dume Traffic Management Plan

In response to community concerns about pedestrian and vehicle safety throughout Point Dume, two community meetings were held to develop a plan for specific traffic calming improvements for the neighborhood. Staff presented its recommendations to the City Council on March 14, 2016, the Council directed staff to implement the following in Point Dume: 1) Install speed humps on Portshead Road from PCH to Boniface Drive; 2) Install six radar speed advisory signs throughout the Point Dume neighborhood and on Busch Drive; 3) Install traffic lane edge striping on Grasswood Avenue and Fernhill Drive; 4) Install a crosswalk at the intersection of Heathercliff Road and Dume Drive; 5) Lower the posted speed limit on Bluewater Road, Wildlife Road and Cliffside Drive from 30 miles per hour to 25 miles per hour; and 6) Require removal of landscape encroachments, with the exception of mature trees, by private property owners into the public right-of-way.
